Unica Audience Central supports 64-bit operating systems only.

Where to find a quick summary of system requirements and prerequisites

For a quick summary of system requirements and prerequisites, see the Unica Audience Central Installation Guide

Where to find complete system requirement and compatibility information

For a list of HCL Marketing Software product versions compatible with this product and a list of third-party requirements for this product, see the Unica Recommended Software Environments and Minimum System Requirements document.

Upgrade Paths

Supported upgrade path via installers:

- 12.1.4 → 12.1.5

Note: 12.1.5 can be clean installed without installing the base version.

Chapter 2. About the product

Unica Audience Central is a centralized tool to create and maintain audience levels that can be targeted by a campaign. In Unica release 12.1.5, Unica Audience Central integrates with Unica Campaign and Unica Interact.

Features

The list of features in Audience Central for the 12.1.5 release are as follows:

UI UX improvements

Many improvements in existing behaviour for better user experience such as below

- Shuffling of columns in Audience profile tab.
- Shifting focus on newly created audience level on creating new audience level for easy table mapping for history tables as well as base tables
- Validations on remapping and unmapping base tables based on if any segments are created using the mapping
- Listing the names of the segments on clicking the # of segments for each base table mapping.
- Showing total no of segments created on the base table mapping as well as number of segments for which user has assigned security policy.

Chapter 3. Fixed Defects

The following table lists the fixed defects in Unica Audience Central 12.1.5

Issue ID	Description
HMA-344958	The number of segments created using a mapping only considers rule based strategic segments.

Chapter 4. Known issues

Unica Audience Central 12.1.5 includes the following known issues:

Issue ID	Description
HMA-347284	API documentation page does not open for WebSphere and JBoss

Chapter 5. Before you contact HCL technical support

If you encounter a problem that you cannot resolve by referring the documentation, your company's designated support contact can log a call with HCL technical support. Use these guidelines to ensure that your problem is resolved efficiently and successfully.

If you are not a designated support contact at your company, contact your HCL administrator for information.

Information to gather

Before you contact HCL technical support, gather the following information:

- A brief description of the nature of your issue.
- Detailed error messages that you see when the issue occurs.
- Detailed steps to reproduce the issue.
- Related log files, session files, configuration files, and data files.
- Information about your product and system environment, which you can obtain as described in "System information."

System information

When you call HCL technical support, you might be asked to provide information about your environment.

If your problem does not prevent you from logging in, much of this information is available on the **About** page, which provides information about your installed HCL applications.

Contact information for HCL technical support

For ways to contact HCL technical support, see the HCL technical support website:
