Unica Campaign System Tables Data Dictionary V12.1

Contents

Chapter 1. Unica Campaign system tables overview

The Unica Campaign System Tables document is intended to help you understand the Unica Campaign data model for integration purposes.

> ⚠ **Important:** Unless otherwise stated, do not modify the system tables directly (rather than through the user interface). If you modify the system tables directly, you may compromise the application functionality and make it more difficult for Technical Support to resolve any problems that may occur.

Unica Campaign system tables: List of changes by version

This topic identifies system database schema changes by version.

reserves the right, at any time, to change the system table schemas. If you choose to develop custom integrations using the Unica Campaign system tables, these components must be reviewed and possibly modified to work with future releases of the Unica Campaign system tables.

There is no guarantee of backwards compatibility or automated migration for custom-developed or third-party extensions using the Unica Campaign system tables. Unless otherwise stated, does not support any use of the Unica Campaign system tables outside of standard application use that is conducted through the Unica Campaign application or standard tools shipped as part of the product.

> 📝 **Note:** The column data types that are indicated below are specific to certain database types and are not applicable to all database types.

System database schema changes for v12.1.0.3

- The following changes were made in the table:

CREATE TABLE UA_JourneyEsInfo (

CampaignID bigint NOT NULL,

FlowchartID bigint NOT NULL,

EntrySourceID bigint NOT NULL,

CONSTRAINT cUA_JourneyEsInfo_PK

PRIMARY KEY (CampaignID, FlowchartID, EntrySourceID)

);

Note: This table is available from fix pack 3.

System database schema changes for v12.1.0.2

• The following changes were made in the table:

CREATE TABLE ua_attribute_default_value (

AttributeID bigint NOT NULL,

StringValue varchar(1024) NULL,

NumberValue float NULL,

DatetimeValue timestamp NULL,

ClobValue CLOB,

CONSTRAINT cUA_ATTRIBUTE_DEFAULT_VALUE_FK1

FOREIGN KEY (AttributeID)

REFERENCES UA_AttributeDef(AttributeID)

);

CREATE TABLE UA_AttributeDependent (

OfferTemplID bigint NOT NULL,

AttributeID bigint NOT NULL,

DependentAttrID bigint NOT NULL,

CONSTRAINT cAttributeDependent_PK

PRIMARY KEY (OfferTemplID, AttributeID, DependentAttrID)

);

ALTER TABLE UA_AttributeDef ADD column LKUP_TABLE varchar(256) NULL;

ALTER TABLE UA_AttributeDef ADD column LKUP_ID_COLUMN varchar(256) NULL;

ALTER TABLE UA_AttributeDef ADD column LKUP_DISP_COLUMN varchar(256) NULL;

ALTER TABLE UA_AttributeDef ADD column LKUP_SORT_COLUMN varchar(256) NULL;

ALTER TABLE UA_AttributeDef ADD column LKUP_ID_COL_DBTYPE varchar(50) NULL;

ALTER TABLE UA_AttributeDef ADD column LKUP_SORT_COL_DBTYPE varchar(50) NULL;

ALTER TABLE UA_AttributeDef ADD column LKUP_SORT_ASCENDING varchar(5) NULL;

CALL sysproc.admin_cmd('REORG TABLE UA_AttributeDef');

ALTER TABLE UA_OfferTemplAttr ADD COLUMN ClobValue CLOB;

CALL sysproc.admin_cmd('REORG TABLE UA_OfferTemplAttr');

ALTER TABLE UA_OfferAttribute ADD COLUMN ClobValue CLOB;

CALL sysproc.admin_cmd('REORG TABLE UA_OfferAttribute');

Note: This table is available from fix pack 2.

System database schema changes for v12.1.0

• The following changes were made in the table:

CREATE INDEX cOfferHistory_IX1 ON UA_OfferHistory

(OfferID ,CRC);

CREATE INDEX enumAttValues_IX1 ON UA_EnumAttrValues

(AttributeID);

CREATE INDEX cOfferTemplateAttr_IX1 ON UA_OfferTemplAttr

(OfferTemplID);

CREATE INDEX cOfferAttr_IX1 ON UA_OfferAttribute

(AttributeID);

CREATE INDEX cOffListMemb_IX2 ON UA_OfferListMember

(NestedOfferListID);

CREATE INDEX cOffListMemb_IX3 ON UA_OfferListMember

(OfferID);

CREATE INDEX cOfferSuprs_IX1 ON UA_OfferSuppression

(OfferID);

CREATE INDEX cOfferToProd_IX1 ON UA_OfferToProduct

(OfferID);

CREATE INDEX cUsrRespType_IX1 ON UA_UsrResponseType

(Name);

CREATE INDEX cOffer_IX2 ON UA_Offer

(FolderID);

CREATE INDEX cOfferList_IX1 ON UA_OfferList

(FolderID);

ALTER TABLE UA_RespTypeMapping RENAME COLUMN DeliverRespTypeID TO
DeliverRespTypeID;

System database schema changes for v11.1.0

- The following changes were made to exiting table:

    ALTER TABLE UA_EngageEtlRecordStatus
    ADD FailureCount int,

TrackingCode varchar(256),

CampaignAudienceId varchar(256),

ExternalSystemReferenceId varchar(64);

CREATE INDEX cEngageEtlRecordStatus_IX1 ON

UA_EngageEtlRecordStatus(Recordid, Status, FailureCount);

CREATE INDEX cEngageEtlRecordStatus_IX2 ON UA_EngageETLRecordStatus

(Status, EventType);

- The following new tables are added:

CREATE TABLE UA_History(

RecordID   bigint NOT NULL,

ObjectType   varchar(32) NOT NULL,

CampaignID   bigint NOT NULL,

SessionID   bigint NOT NULL,

sourceType   bigint NOT NULL,

sourceTypeId   bigint NOT NULL,

sourceTypeName varchar(255) NOT NULL,

DatetimeValue timestamp NOT NULL,

eventType   bigint NOT NULL,

UpdateBy   varchar(256) NOT NULL,

SaveComment   varchar(1024) NULL,

CONSTRAINT cUA_History_PK PRIMARY KEY (RecordID)

);

CREATE INDEX iHistory_CampaignID ON UA_History(CampaignID);

CREATE INDEX iHistory_SessionID ON UA_History(SessionID);

CREATE TABLE UA_TempTreatment (

TreatmentId bigint NOT NULL,

```
    Count bigint NOT NULL
    );
```

System database schema changes for v11.0.0.0

- The following changes were made.ALTER TABLE UA_InteractedSMS ADD COLUMN MessageBody varchar(256) NULL;
- The following new table was added:

```
CREATE TABLE UA_EmailOptOut (
    RecordID       bigint NOT NULL GENERATED ALWAYS AS IDENTITY,
    Provider       varchar(64) NULL,
    EndpointSource   varchar(64) NULL,
    Channel         varchar(64) NULL,
    X1ID         varchar(64) NULL,
    ContactId       varchar(64) NULL,
    Email         varchar(64) NULL,
    EventCode       varchar(64) NOT NULL,
    EventTimeStamp    timestamp NOT NULL,
    EventNameSpace    varchar(64) NULL,
    EventVersion    varchar(64) NULL,
    EventName       varchar(64) NULL,
    Description      varchar(128) NULL,
    OptOutDetails   varchar(1024) NOT NULL,
    MessageId       bigint NULL,
    MailingTemplateId bigint NULL,
    ReportId        varchar(64) NULL,
    SubjectLine     varchar(256) NULL,
    MessageName     varchar(1024) NULL,
    DocType         varchar(64) NULL,
    EventId        varchar(64) NULL,
    TrackingCode      varchar(1024) NULL,
```

ExternalSystemName varchar(64) NULL,

ExternalSystemReferenceID varchar(64) NULL,

CampaignAudienceID varchar(256) NULL,

CONSTRAINT tUA_EmailOptOut_PK PRIMARY KEY (RecordID)

);

System database schema changes for v10.0.0.2

10.0.0.2

- • No new tables were added.
- • The following changes were made:

  - ALTER TABLE UA_SimpNot_appOpened ADD COLUMN ActionTaken varchar(64);
  - ALTER TABLE UA_SimpNot_appOpened ADD COLUMN ActionValue varchar(1024);
  - ALTER TABLE UA_SimpNot_URLClicked ADD COLUMN ActionTaken varchar(64);
  - ALTER TABLE UA_SimpNot_URLClicked ADD COLUMN ActionValue varchar(1024);
  - CREATE INDEX emailSend_IX3 ON UA_EmailSend

    (

      ExternalSystemReferenceID,

      CampaignAudienceID

    );
  - ALTER TABLE UA_EmailClick ALTER COLUMN ClickUrl SET DATA
      TYPE varchar(1024);
  - ALTER TABLE UA_EmailClick ALTER COLUMN UrlDescription SET DATA
      TYPE varchar(1024);

System database schema changes for v10.0.0.1

The following new tables were added.

CREATE TABLE UA_EmailSend (

RecordID bigint NOT NULL GENERATED ALWAYS AS IDENTITY,

Provider varchar(64) NULL,

```
EndpointSource varchar(64) NULL,

);

CREATE TABLE UA_EngageEtlTracker (
EventType int NOT NULL,
LastProcessedRecordId bigint NOT NULL
);
```

System database schema changes for v10.0

One new table was added:

```
UA_APIKEY (
    id varchar(256) NOT NULL,
    apikey varchar(256) NOT NULL,
    createDate timestamp
)
```

This table supports the Unica Campaign internal API security implementation. Do not modify this table or table data.

System database schema changes for v9.1.2

There were no schema changes in version 9.1.2.

System database schema changes for v9.1.1

- No tables were modified.
- One new table was added:

```
UA_AnnotationInfo (
FlowchartID bigint NOT NULL,
AnchorID bigint NOT NULL,
AnchorType int NOT NULL,
CreationDate datetime NULL,
CreatedBy int NULL,
LastUpdated datetime NULL,
LastUpdatedBy int NULL,
X int NULL,
Y int NULL,
IsVisible int NULL,
Content nvarchar(1024) NULL,
CONSTRAINT cAnnotationInfo_PK
PRIMARY KEY (FlowchartID ASC, AnchorID ASC, AnchorType ASC)
)
```

System database schema changes for v9.1

- No tables were modified.
- A new table, UA_RespTypeMapping, was added to support Unica Deliver-Unica Campaign integration:

CampaignRespTypeID	DeliverRespTypeID	ApplicationType
9	1	3
10	14	3
11	18	3

- The UA_RespTypeMapping table is used as a join between the Unica Campaign UA_UsrResponseType table and the Unica Deliver table UACE_ResponseType.
- Link Click (9,1,3), Landing Page (10,14,3) and SMS Reply Message (11,18,3) are available. Currently, only Link Click is used. Columns for Landing Page and SMS Reply message are not populated by the ETL process at this time. Over time, more response types can be added which could then be used by the ETL process and be added in the performance report.

System database schema changes for v9.0

- No tables were modified.
- Two new tables were added:

UA_OfferSuppression (
    OfferID   bigint NOT NULL,
    SuppressionType   int NOT NULL,
    ResponseTypeCode   varchar(64) NULL,
    EventCount   int NULL,
    AttributeID   bigint NULL,
    StringValue   nvarchar(1024) NULL,
    NumberValue   float NULL,
    DatetimeValue   datetime NULL,

```
        SuppressionDuration  int NULL,
        CONSTRAINT cOfferSuppression_PK
        PRIMARY KEY (OfferID ASC, SuppressionType ASC)
)

UA_RespTypeMapping (
CampaignRespTypeID bigint NOT NULL,
DeliverRespTypeID bigint NOT NULL,
ApplicationType int NULL
)
```

System database schema changes for v8.6

There were no schema changes in version 8.6.

System database schema changes for v8.5

- No new tables were added.
- The following changes were made:
  - UA_TmpTablePool: add InstanceID bigint NULL
  - UPDATE UA_TmpTablePool: set InstanceID = 0 where InstanceID IS NULL
  - ALTER Table UA_OfferList: add creatorFlag int NULL, creatorObjectId bigint NULL
  - UPDATE UA_OfferList: set creatorFlag = 0 , creatorObjectId = 0
  - ALTER Table UA_Folder: add creatorFlag int NULL, creatorObjectId bigint NULL
  - UPDATE UA_Folder: set creatorFlag = 0, creatorObjectId = 0
  - ALTER TABLE UA_ATTRIBUTEDEF: add isMandatory int NULL
  - ALTER TABLE UA_ATTRIBUTEDEF: add sortOrder int NULL
  - UPDATE UA_ATTRIBUTEDEF: set isMandatory = 0, sortOrder = 0
  - ALTER TABLE UA_ENUMATTRVALUES: add isDefault int NULL
  - UPDATE UA_ENUMATTRVALUES: set isDefault = 0

◦ Insert into UA_AttributeDef (AttributeID, Name, DisplayName, Description, ObjectType, AttributeType, EnumType, Length, SystemDefined, isMandatory, sortOrder) VALUES (15, ' CreativeURL ', 'Creative URL', 'The creative or digital asset URL associated with this offer', 4, 1, 0, 512, 1, 0, 0)

System database schema changes for v8.2

- No new tables were added.
- The following changes were made:
    - ◦ ALTER Table UA_Offer add creatorFlag int NULL, creatorObjectId bigint NULL
    - ◦ UPDATE UA_Offer set creatorFlag = 0 , creatorObjectId = 0
    - ◦ ALTER Table UA_OfferTemplate add creatorFlag int NULL, creatorObjectId bigint NULL
    - ◦ UPDATE UA_OfferTemplate set creatorFlag = 0, creatorObjectId = 0

System database schema changes for v8.1

- The following table was added:

UA_TmpTablePool (

    ID   bigint NOT NULL,

    DataSrcName   nvarchar(255) NOT NULL,

    TableSchema   nvarchar(1024) NOT NULL,

    TableID   bigint NULL,

    UserID   bigint NULL,

    FlowchartID   bigint NULL,

    Status   tinyint NULL,

    CONSTRAINT cTmpTablePool2_PK

        PRIMARY KEY (ID ASC)

)

- The following change was made:

UPDATE UA_TARGETCELLS SET approved = 1 WHERE approved IS NULL

System database schema changes for v8.0

- No new tables were added.
- The following change was made:

  CREATE UNIQUE INDEX cAttributeDef_IX1 ON UA_AttributeDef
  (
       Name ASC
)

Unica Campaign system tables data model diagram

This entity relationship model identifies each Unica Campaign system table and its keys, fields, and data types.

UA_Folder
- FolderID : bigint
- Name : varchar(255)
- Description : varchar(1024)
- ParentFolderID : bigint
- ObjectType : int

Definitions of additional attributes in system table records

The Additional Attributes column in the system table reference provides information about the fields that are in each system table. The following definitions explain the meaning of each attribute that is included in the Additional Attributes column.

Table 1. Additional attributes in system table records

Addition-al Attributes	Definition
Is Primary Key?	Whether the field is the primary key.
Is Foreign Key?	Whether the field is a foreign key.
Required Field?	Whether the field is required in the table for a valid row entry.
System Generated?	Whether the field has a system-generated default value on object creation.
System Generated Override?	If a system-generated value is provided, whether the user can change the default value.
User Entered?	Whether the field is entered by the user through the Campaign user interface.
Stored Create?	Whether this field is populated when it is initially created.
Stored Save?	Whether this field value can be edited later and changed (on save) after initial object creation.
Stored Run?	Whether this field is populated during a flowchart run.
Configuration?	Whether this field is affected by a configuration parameter.

Chapter 2. Unica Campaign system table reference

The system table reference provides details on each of the Unica Campaign system tables. The data types that are indicated in the following tables are generic types that may be different in your Unica Campaign installation, depending on the database that is used for the system tables. The Unica Campaign system tables are stored in a database that was created prior to the Unica Campaign installation. The database can have any name. The ODBC or native connection provides a connection to the database. The Unica Campaign configuration settings under Campaign | partitions | partition1 | dataSources | UA_SYSTEM_TABLES determine how Unica Campaign interacts with databases, including its own system tables, for the default partition.

UA_ActionCustomer

The UA_ActionCustomer table is a sample action table that is provided for the Customer audience level. The fields in this table are examples of fields that may be useful for generating response history. Administrators can customize the table as needed. Typically, each audience level has its own action table, which is used for response tracking.

Table 2. UA_ActionCustomer field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
CustomerID	BIGINT	NOT NULL	This field represents the audience level, which may comprise one or more fields.	19	**Is Primary Key?** No
ActionDateTime	TIMES-TAMP	NOT NULL	Example of a field that can be used when generating response history.	23,3	**Is Primary Key?** No

Table 2. UA_ActionCustomer field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
ResponseChannel	VAR-CHAR	NULL	Example of a field that can be used when generating response history.	16	**Is Primary Key?** No
Unica Campaign-Code	VAR-CHAR	NOT NULL	Example of a field that can be used when generating response history.	32	**Is Primary Key?** No
OfferCode	VAR-CHAR	NOT NULL	Example of a field that can be used when generating response history.	64	**Is Primary Key?** No
CellCode	VAR-CHAR	NOT NULL	Example of a field that can be used when generating response history.	64	**Is Primary Key?** No
TreatmentCode	VAR-CHAR	NOT NULL	Example of a field that can be used when generating response history.	64	**Is Primary Key?** No
ProductID	BIGINT	NOT NULL	Example of a field that can be used when generating response history.	19	**Is Primary Key?** No
ResponseTypeCode	VAR-CHAR	NULL	Example of a field that can be used when gen-	64	**Is Primary Key?** No

Table 2. UA_ActionCustomer field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			erating response history.		

UA_AttributeDef

The UA_AttributeDef table contains the definitions of both system and custom attributes for offers and cells (Unica Campaign custom attributes are stored in the UA_CampAttribute table). System-defined attributes have the field SystemDefined=1. Offers (OfferTemplates, Offers, OfferHistory) and Cells use these attribute definitions. This table is written to when the Save button is invoked from the Custom attribute definition page. Each attribute creates one row in this table, identified by the unique ID AttributeID. After an attribute is initially created, some fields like the AttributeType and Length fields cannot be modified (see individual fields for further info).

Table 3. UA_AttributeDef field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
AttributeID	BIGINT	NOT NULL	Globally unique identifier of the attribute. This ID is assigned by the system when an attribute is created. Custom attribute IDs start at either 100 or the value of internalIDLowerLimit config parameter, whichever is higher.	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No
					User Entered? No
					Stored Create? Yes
					Stored Save? No
					Stored Execute? No
					Configuration? No
Name	VAR-CHAR	NULL	Internal name of the attribute; must be globally unique. The name is user-provided for custom attributes and is the name used in any Unica query expression when the field is used as an UCGF. The internal name is automatically provided for system-defined attributes and cannot be modified. Changing this val-	64	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			ue after it is used will break any query expressions referencing the prior name. **Valid Values:** Any text characters, minus standard disallowed special Unica query language name characters.		**User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
DisplayName	VAR-CHAR	NULL	Display name of attribute, should not necessarily be unique within offer attributes, cell attribute and campaign attribute names but it is recommended to be unique within the same type (offer, cell and campaign) to avoid confusion. The name is user-provided for custom attributes and is the label displayed to the user in forms and reports (e.g., the Custom	64	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes

			mal places to the right of the decimal point) displayed for numbers and currency data types. Not used for datetime data type. Length of a text-string custom attribute can very well be decreased. You may lose any value lost that is beyond the decreased length though. Hence, not recommended.		**Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
Retired	INTEGER	NULL	Reserved for future use. **Valid Values:** 0 = active; 1 = retired	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? Yes **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** No
SystemDefined	INTEGER	NULL	Specifies whether an attribute is a predefined attribute shipped with Unica Campaign. All custom attributes have a value of 0 except the ones already created by the system during installation, that have value of 1. System defined or user defined attributes cannot be deleted from the system.	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: 0 = user defined, 1 = system-defined		**User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
CreateDate	TIMES-TAMP	NULL	Server date and time the object was created. **Valid Values:** Valid datetime	23,3	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? No **Stored Execute?** No **Configuration?** Yes
CreateBy	INTEGER	NULL	Unica Platform user ID for the user who created the object. **Valid Values:** Valid Unica Platform UserID	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? No
UpdateDate	TIMES-TAMP	NULL	Last server date and time the object was updated (edited and saved). **Valid Values:** Valid datetime	23,3	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** Yes
UpdateBy	INTEGER	NULL	Unica Platform user ID for the user who last	10	**Is Primary Key?** No

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			updated the object; same as CreateBy for initial object creation. **Valid Values:** Valid Unica Platform UserID		**Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
CreatorFlag	INTEGER	NULL	Specifies the application that created the custom attribute **Valid Values:** NULL/0 = Unica Campaign 1 = HCL Plan (UMO)	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated? Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
isMandatory	INTEGER	NULL	This flag indicates if attribute is mandatory. If value is one, user must provide value to this attribute when user creates Campaign/offer/cell. **Valid Values:** 0,1	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
sortOrder	INTEGER	NULL	This flag indicates by which order values in Single Select attribute should be sorted. **Valid Values:** 0,1,2,3	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					User Entered? Yes
					Stored Create? Yes
					Stored Save? Yes
					Stored Execute? No
					Configuration? No
LKUP_TABLE	VAR-CHAR	NULL	Name of the database table that supplies values from which users can select for this attribute.	256	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? Yes
					System Generated? Yes
					System Generated Override? No
					User Entered? No
					Stored Create? Yes

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? Yes
					Stored Execute? No
					Configuration? Yes
LKUP_ID_COLUMN	VARCHAR	NULL	Name of the key column in the lookup table for this attribute.	256	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? Yes
					System Generated? Yes
					System Generated Override? No
					User Entered? No
					Stored Create? Yes
					Stored Save? Yes
					Stored Execute? No

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? Yes
LKUP_DISP_COL-UMN	VAR-CHAR	NULL	Name of the column in the lookup table that stores the values to display to the users.	256	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Gener-ated?** Yes **System Gener-ated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Exe-cute?** No **Configuration?** Yes
LKUP_SORT_COL-UMN	VAR-CHAR	NULL	Name of the column in the lookup table to use	256	**Is Primary Key?** No

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			to sort the entries that display to the users.		**Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** Yes
LKUP_ID_COL_DB-TYPE	VAR-CHAR	NULL	Datatype of the id column in the lookup table.	50	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated? Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** Yes
LKUP_SORT_COL_-DBTYPE	VAR-CHAR	NULL	Datatype of the sort column in the lookup table.	50	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** Yes
LKUP_SORT_AS-CENDING	VAR-CHAR	NULL	Sort order for the lookup table. The following values are valid. • 0 = Descending • 1 = Ascending	5	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No

Table 3. UA_AttributeDef field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					User Entered? No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** Yes

Table 4. UA_AttributeDef child tables

Table name	Description
UA_CampAttribute	This table stores the values of the campaign custom attributes for each campaign.
UA_CampToCellAttr	This table is a mapping of cell custom attributes to Unica Campaign. The AttributeIDs in that table are all of the cell attributes. This table is populated only in Unica Campaigns created in HCL Plan.
UA_CellAttribute	This table stores the custom cell attribute values for a particular cell. These values are data-entered by the user in the Target Cell Spreadsheet (TCS). Only one of the fields (StringValue, NumberValue, DatetimeValue) is populated for any given row, depending on the data type of the custom attribute (as specified in UA_AttributeDef). Attributes are displayed in the target cell spreadsheet in AttributeID order.

Table 4. UA_AttributeDef child tables (continued)

Table name	Description
UA_EnumAttrValues	This table holds all the drop-down list (enumerated) data values for custom attributes where UA_AttributeDef.Enum-Type = 1 or 2.
UA_OfferAttribute	This table stores the values of offer attributes associated with an offer (system-generated and custom).
UA_OfferHistAttrib	This table stores the actual values used for parameterized (only) offer attributes when an offer is used (given out in a flowchart production run with logging to CH enabled). It is populated at flowchart run time.
UA_OfferTemplAttr	This table stores the offer attribute values associated with a particular offer template and specifies whether each attribute is hidden, parameterized, its default value, and display order. Note that only one of the fields StringValue, NumberValue and DatetimeValue contain the value for the attribute based on the attributeType defined in the UA_AttributeDef table.

UA_Calendar

This table holds calendar information identifying information about calendar quarters, days of the week, first and last days of the week, etc. It is used to facilitate reporting over time. It is expected that this table will be customized by customers during implementation. It is the responsibility of the implementation to ensure that dates referenced in Contact history are contained in the time span covered by this table.

Table 5. UA_Calendar field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
DateID	BIGINT	NOT NULL	Unique identifier for a row of this table. **Valid Values:** Date represented as YYYYM-MDD	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes
Year	INTEGER	NOT NULL	Four-digit year for the date. **Valid Values:** Positive 4-digit integer	10	**Is Primary Key?** No **Is Foreign Key?** No

Table 5. UA_Calendar field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Required Field? Yes
					System Generated? No
					System Generated Override? No
					User Entered? No
					Stored Create? No
					Stored Save? No
					Stored Execute? No
					Configuration? Yes
FiscalYear	INTEGER	NOT NULL	Four-digit fiscal year for the date. **Valid Values:** Positive 4-digit integer	10	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? Yes
					System Generated? No

Table 5. UA_Calendar field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No
					User Entered? No
					Stored Create? No
					Stored Save? No
					Stored Execute? No
					Configuration? Yes
Quarter	INTEGER	NOT NULL	Calendar quarter in which the date falls (Q1 being Jan. 1st through March 31st). **Valid Values:** Integer value between 1-4	10	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? Yes
					System Generated? No
					System Generated Override? No

Table 5. UA_Calendar field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes
DayOfWeek	INTEGER	NOT NULL	Which day of the week a date falls. **Valid Values:** Integer value between 1-7	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No

Table 5. UA_Calendar field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					User Entered? No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes
ActualDate	TIMES- TAMP	NOT NULL	The date represented in this row. **Valid Values:** Valid datetime	23,3	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No

Table 5. UA_Calendar field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? No **Stored Execute?** No **Configuration?** Yes
FirstDayOfWeek	TIMESTAMP	NOT NULL	The first day of the week in which this date falls. **Valid Values:** Valid datetime	23,3	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No

Table 5. UA_Calendar field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? Yes
LastDayOfWeek	TIMES-TAMP	NOT NULL	The last day of the week in which this date falls. **Valid Values:** Valid datetime	23,3	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes

Table 6. UA_Calendar child tables

Table name	Description
UA_ContactHistory	User-created table that stores the required contact fields (AudienceID, CellID, PackageID, ContactDateTime, ContactStatusID, and so forth) plus any user-defined additionally tracked fields. There is a separate table for each audience level. Rows in this table are written if the CSP logging table has "Log to contact history tables" enabled. This table captures cell membership information and identifies cells treated in the same CSP by packageID (all contacts made to the same audience entity in the same CSP is part of the same "package", which represents an interruption). Both target cells and hold-out controls are written to contact history (CH). Existing entries in this table can be updated (ContactStatus, UpdateDateTime, and user-defined fields) using the Track process. The Track process cannot create new rows in this table. This table is required for tracking contacts. This is also used by Unica Optimize (ACO) for applying optimization to contacts. This "base" contact history table is populated simultaneously with the UA_Treatment, UA_OfferHistory, and UA_OfferHistAttrib tables (together all of these tables make up "contact history"). None of these tables are written if log to contact history is not enabled in a CSP.
UA_DtlContactHist	The concept of offer version is no longer supported/present since 7.x. Hence, please remove offer versions. This table has rows written to it only when UA_Treatment.HasDetailHistory = 1.
UA_ResponseHistory	User-created table that stores the required response tracking fields (AudienceID, TreatmentInstID, response date, response type, and so forth) plus any user-defined additional-

Table 6. UA_Calendar child tables (continued)

Table name	Description
	ly tracked fields. There is a separate response history table for each audience level. Rows in this table are written by the Response process.

UA_Campaign

This table contains campaign metadata provided by the user and basic run information. One row is written this table each time a new campaign is created and saved. Related tables (UA_CampToSegment, UA_CampToOffer, and UA_Flowchart) are not updated until those relationships/links or objects are created. That is, a UA_Flowchart record is created only when a new flowchart is added to the campaign. The UA_CampaignExtAttr is populated at the same time with any campaign custom attribute values.

Table 7. UA_Campaign field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
CampaignID	BIGINT	NOT NULL	Globally unique, system-generated identifier of a campaign, assigned by the system when a campaign is created. Campaign uses the next available value (assumed unique) from the UA_IDSByType table for campaigns. **Valid Values:** Globally unique positive in-	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No

Table 7. UA_Campaign field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			teger within the internalIDLowerLimit and internalIDUpperLimit configuration parameter values for generated values (may be outside this range for campaigns imported from another system using sesutil).		**User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
Name	VAR-CHAR	NOT NULL	Name of campaign; not required to be unique (but is a best practice to be unique). **Valid Values:** Any text characters, minus standard disallowed special name characters	64	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** Yes **User Entered?** Yes **Stored Create?** Yes

Table 7. UA_Campaign field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? Yes
					Stored Execute? No
					Configuration? No
Description	VARCHAR	NULL	Optional, user-entered, free-form description of the campaign. **Valid Values:** Any text characters minus standard disallowed special characters in text	1024	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? No
					System Generated? No
					System Generated Override? No
					User Entered? Yes
					Stored Create? Yes
					Stored Save? Yes
					Stored Execute? No

Table 7. UA_Campaign field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? No
FolderID	BIGINT	NULL	Folder ID for the folder where the campaign is stored. Value is automatically populated based on the folder where the object is stored. User can change this value by "moving" the object to a different folder. **Valid Values:** Any valid FolderID value existing in UA_Folder table	19	**Is Primary Key?** No **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
CampaignCode	VAR-CHAR	NOT NULL	Globally unique code for the campaign. By	32	**Is Primary Key?** No

Table 7. UA_Campaign field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			default, a campaign code is generated by the system using the configured campaign code generator (campCodeGenProgFile) when creating a new campaign. The length and format of the campaign code is specified at implementation time (campCodeFormat). (Both of these configuration parameters can be found in the server > systemCodes config section). The campaign code can be changed by the user to any unique value satisfying the code format (enforced by Campaign). Changing this value after a campaign runs may cause response tracking problems if campaign code is used.		**Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** Yes **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 7. UA_Campaign field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: Depends on campaign code format specified: n=0-9 a=A-Z c=A-Z, 0-9 x=any character		
Initiative	VAR-CHAR	NULL	Optional initiative associated with this campaign. **Valid Values:** Any value from the UA_Initiatives table If values are subsequently deleted from UA_Initiatives, it is possible to have values here that do not appear in that table.	255	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 7. UA_Campaign field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
Objectives	VAR-CHAR	NULL	Optional, free-form text description of the campaign objective(s). **Valid Values:** Any text characters minus standard disallowed special characters in text	1024	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
CreateDate	TIMES-TAMP	NULL	Date and time the Campaign is created. **Valid Values:** Valid datetime	23,3	**Is Primary Key?** No **Is Foreign Key?** No

Table 7. UA_Campaign field descriptions (continued)

Table 7. UA_Campaign field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? Yes **Stored Execute?** No **Configuration?** No
StartDate	TIMES-TAMP	NULL	Date the campaign is effective. In the UI, this is the campaign Effective Date. Default value is today. **Valid Values:** Valid datetime	23,3	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** Yes **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No

Table 7. UA_Campaign field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? Yes
EndDate	TIMES-TAMP	NULL	Date the campaign expires. In the UI, this is the campaign Expiration Date. Default value is one month from start date. **Valid Values:** Valid datetime	23,3	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** Yes **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** Yes
LastRunDate	TIMES-TAMP	NULL	Date and time the campaign was last run	23,3	**Is Primary Key?** No

Table 7. UA_Campaign field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			(any flowchart, branch, process run of any flowchart within the campaign). This value is NULL if never run. Test runs do NOT update this value. **Valid Values:** Valid datetime		**Is Foreign Key?** No **Required Field?** No **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** Yes
RunBy	INTEGER	NULL	Unica Platform user ID for the user who last ran the campaign; updated whenever LastRunDate is updated. This value is NULL if	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No

Table 7. UA_Campaign field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			never run. Test runs do NOT update this value. **Valid Values:** Valid UserID in Unica Platform Value may be invalid if user is subsequently deleted.		**System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No
ProjectID	INTEGER	NULL	Unica Marketing Operations project ID. This field is populated when a campaign is created from Unica Marketing Operations. By default, this value is NULL. When a project in Unica Marketing Operations is disassociated with this campaign, the system writes a NULL	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** Yes

Table 7. UA_Campaign field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			to this field (based on UnlinkProjectNotification campaign service call). **Valid Values:** NULL, 0, or valid ProjectID from HCL Unica Marketing Operations.		**System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
PolicyID	INTEGER	NULL	Security policy ID for the object, which determines which Unica Platform users are allowed to access this object. The security policy for the object is automatically set to the security policy of the folder in which the object resides if the object is created in a folder (cannot be changed	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** Yes

Table 7. UA_Campaign field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			by the user). The user can change the security policy of the object by moving the object to a different folder with a different security policy (user requires "move" permissions for that object in both the source and destination security policies). It is directly settable by the user only when the object is created in the top-level root folder for that object type (security policies in which the user has a role are displayed as choices). **Valid Values:** Any valid PolicyID from Unica Marketing Platform's usm_role table		**User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
ACLID	INTEGER	NULL	For future use.	10	**Is Primary Key?** No **Is Foreign Key?** No

Table 7. UA_Campaign field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Required Field? No **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** No
CreatorFlag	INTEGER	NULL	Specifies the application that created the custom campaign **Valid Values:** • NULL/0 = Campaign. • 1 = Unica Plan (UMO).	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** Yes

Table 7. UA_Campaign field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No

Table 8. UA_Campaign parent tables

Table name	Description
UA_Folder	This table contains the basic data for all internal folders for object storage in the system. A new row is created each time a new folder is created for storing any of system object (e.g., campaign, session, offer, segment, custom macro, derived field, etc.).

Table 9. UA_Campaign child tables

Table name	Description
UA_CampAttribute	This table stores the values of the campaign custom attributes for each campaign.

Table 9. UA_Campaign child tables (continued)

Table name	Description
UA_CampToCellAttr	This table is a mapping of cell custom attributes to Campaign. The AttributeIDs in that table are all of the cell attributes. This table is populated only in campaigns created in HCL Plan.
UA_CampToOffer	This table stores top-down defined relationships between a campaign and its related offers (specified by the user from the Campaign summary page by clicking on "Add/Remove Offers" link). This can be a many-to-many mapping. Bottom-up offers (offers used in a flowchart of the campaign) are not stored in this table.
UA_CampToSegment	This table stores top-down defined relationships between a campaign and its related segments (specified by the user from the Campaign summary page by clicking on "Add/Remove Segments" link). This can be a many-to-many mapping. Bottom-up segments (strategic segments used in a flowchart of the campaign) are not stored in this table.
UA_Flowchart	This table stores information for all flowcharts. It has one row for each flowchart in the system and is also used for reporting on the running flowcharts (status) in the system.
UA_TargetCells	This table stores information on target cells created in all flowcharts. Target cells are defined as cells that are attached to an output process (Mail List, Call List, Deliver, Snapshot, or Optimize). It stores meta data information (name, code), source info (campaign, flowchart and cell IDs), treatment data (list of assigned offers/offer lists and whether it is a control cell), and whether the cell was created top-down in the Target Cell Spreadsheet (TCS) or bottom-up from within a flowchart.

Table 9. UA_Campaign child tables (continued)

Table name	Description
UA_Treatment	Stores all treatments (intersection of offer versions to target cells at a point in time (run instance) and related data. If multiple offers are assigned to a cell, there are multiple rows in the treatment table (one treatment for each offer version given to the cell). If offer personalization is used, a treatment is created for each unique permutation of offer attributes (offer version) used (and HasDetailHistory=1 and contact information is stored in a separate table, UA_DtlContactHistory). This data is populated during a production run of a CSP only when logging is enabled.
UA_OptimizeProcess	An entry in this table represents a single Optimize process box as seen in Campaign flowcharts.

UA_AnnotationInfo

This table contains data for annotations that are created and edited by users. One row is written this table each time a new annotation is created or updated and the flowchart is saved. A maximum of one annotation is allowed for each process box.

Table 10. UA_AnnotationInfo field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
FlowchartID	BIGINT	NOT NULL	Represents a globally unique, system-generated identifier of the flowchart in which the annotation is created. FlowchartID forms part	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes

Table 10. UA_AnnotationInfo field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			of the composite primary key for this table. **Valid Values:** Globally unique positive integer within the internalIDLowerLimit and internalIDUpperLimit configuration parameter values for generated values (may be outside this range for campaigns imported from another system using sesutil).		**System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
AnchorID	BIGINT	NOT NULL	Represents unique in Flowchart scope, system-generated identifier of an anchor (an object within flowchart which owns annotation). AnchorID forms part of the composite primary key for this table. Only processes are supported as anchors.	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes

Table 10. UA_AnnotationInfo field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: Flow-chart level unique positive integer.		**System Generated Override?** Yes **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
AnchorType	INTEGER	NOT NULL	Represents type of anchor (an object within flowchart which owns annotation). AnchorType forms part of the composite primary key for this table. Only processes are supported as anchors. **Valid Values:** 1	10	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No

Table 12. UA_CampAttribute parent tables

Table name	Description
UA_Campaign	This table contains campaign metadata provided by the user and basic run information. One row is written this table each time a new campaign is created and saved. Related tables (UA_CampToSegment, UA_CampToOffer, and UA_Flowchart) are not updated until those relationships/links or objects are created. That is, a UA_Flowchart record is created only when a new flowchart is added to the campaign. The UA_CampaignExtAttr is populated at the same time with any campaign custom attribute values.
UA_AttributeDef	The UA_AttributeDef table contains the definitions of both system and custom attributes for offers and cells (campaign custom attributes are stored in the UA_CampAttribute table). System-defined attributes have the field SystemDefined=1. Offers (OfferTemplates, Offers, OfferHistory) and Cells use these attribute definitions. This table is written to when the Save button is invoked from the Custom attribute definition page. Each attribute creates one row in this table, identified by the unique ID AttributeID. After an attribute is initially created, some fields like the AttributeType and Length fields cannot be modified (see individual fields for further info).

UA_CampToCellAttr

This table is a mapping of cell custom attributes to Campaign. The AttributeIDs in that table are all of the cell attributes. This table is populated only in campaigns created in HCL Plan.

Table 13. UA_CampToCellAttr field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
CampaignID	BIGINT	NOT NULL	CampaignID for the campaign that is associated with the AttributeID. **Valid Values:** Any valid CampaignID in UA_Campaign table where CreatorFlag = 1	19	**Is Primary Key?** Yes **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
AttributeID	BIGINT	NOT NULL	AttributeID for the cell attribute that is associated with the campaignID. (These re-	19	**Is Primary Key?** Yes **Is Foreign Key?** Yes

			lationships are defined by the campaign project template created in HCL Plan.) **Valid Values:** Any valid AttributeID in UA_AttributeDef table where ObjectType = cell		**Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No

Table 14. UA_CampToCellAttr parent tables

Table name	Description
UA_Campaign	This table contains campaign metadata provided by the user and basic run information. One row is written this table each time a new campaign is created and saved. Related tables (UA_CampToSegment, UA_CampToOffer, and UA_Flowchart) are not updated until those relationships/links or objects are created. That is, a UA_Flowchart record is cre-

Table 14. UA_CampToCellAttr parent tables (continued)

Table name	Description
	ated only when a new flowchart is added to the campaign. The UA_CampaignExtAttr is populated at the same time with any campaign custom attribute values.
UA_AttributeDef	The UA_AttributeDef table contains the definitions of both system and custom attributes for offers and cells (campaign custom attributes are stored in the UA_CampAttribute table). System-defined attributes have the field SystemDefined=1. Offers (OfferTemplates, Offers, OfferHistory) and Cells use these attribute definitions. This table is written to when the Save button is invoked from the Custom attribute definition page. Each attribute creates one row in this table, identified by the unique ID AttributeID. After an attribute is initially created, some fields like the AttributeType and Length fields cannot be modified (see individual fields for further info).

UA_CampToOffer

This table stores top-down defined relationships between a campaign and its related offers (specified by the user from the Campaign summary page by clicking on "Add/Remove Offers" link). This can be a many-to-many mapping. Bottom-up offers (offers used in a flowchart of the campaign) are not stored in this table.

Table 15. UA_CampToOffer field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes

			used to access "Add/ Remove Offers" link). **Valid Values:** Any valid CampaignID from the UA_Campaign table		**System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 16. UA_CampToOffer parent tables

Table name	Description
UA_Offer	This table stores basic information about offers. All offer attributes are now stored in UA_OfferAttribute table. Each offer is associated with the Offer Template that was used to create the offer. During offer creation, the creator can change the values for the static attributes and default values for the parameterized attributes. Actual values of the parameterized attributes are assigned at the flowchart design time or at the flowchart run time.

Table 16. UA_CampToOffer parent tables (continued)

Table name	Description
UA_Campaign	This table contains campaign metadata provided by the user and basic run information. One row is written this table each time a new campaign is created and saved. Related tables (UA_CampToSegment, UA_CampToOffer, and UA_Flowchart) are not updated until those relationships/links or objects are created. That is, a UA_Flowchart record is created only when a new flowchart is added to the campaign. The UA_CampaignExtAttr is populated at the same time with any campaign custom attribute values.

UA_CampToSegment

This table stores top-down defined relationships between a campaign and its related segments (specified by the user from the Campaign summary page by clicking on "Add/Remove Segments" link). This can be a many-to-many mapping. Bottom-up segments (strategic segments used in a flowchart of the campaign) are not stored in this table.

Table 17. UA_CampToSegment field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
CampaignID	BIGINT	NOT NULL	CampaignID for the campaign that is associated with the SegmentID. This is always the ID of the current campaign (the one who's campaign summary page is used to	19	**Is Primary Key?** Yes **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes

			summary page of any campaign to which it was associated. **Valid Values:** Any valid SegmentID from the UA_Segment table		**User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 18. UA_CampToSegment parent tables

Table name	Description
UA_Campaign	This table contains campaign metadata provided by the user and basic run information. One row is written this table each time a new campaign is created and saved. Related tables (UA_CampToSegment, UA_CampToOffer, and UA_Flowchart) are not updated until those relationships/links or objects are created. That is, a UA_Flowchart record is created only when a new flowchart is added to the campaign. The UA_CampaignExtAttr is populated at the same time with any campaign custom attribute values.

UA_CCRunLog

This table logs each time a flowchart is run in production (not populated by test runs), providing a flowchart run history. A unique RunID is generated on each new flowchart

run (but not for run branch/process). It records the start/end datetime and who ran the flowchart.

Table 19. UA_CCRunLog field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
RunID	BIGINT	NOT NULL	Globally unique identifier generated every time a flowchart is run (generated from IDsbyType) for batch flowcharts. Incremented for saved change for interactive flowcharts. **Valid Values:** Globally unique positive integer within the internalIDLowerLimit and internalIDUpperLimit configuration parameter values for generated values (may be outside this range for campaigns imported from another system using sesutil).	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No

UA_SesnRunType	This enumerates the Campaign session run types.

Table 21. UA_CCRunLog child tables

Table name	Description
UA_Treatment	Stores all treatments (intersection of offer versions to target cells at a point in time (run instance) and related data. If multiple offers are assigned to a cell, there are multiple rows in the treatment table (one treatment for each offer version given to the cell). If offer personalization is used, a treatment is created for each unique permutation of offer attributes (offer version) used (and HasDetailHistory=1 and contact information is stored in a separate table, UA_DtlContactHistory). This data is populated during a production run of a CSP only when logging is enabled.
UA_RunResult	

UA_CellAttribute

This table stores the custom cell attribute values for a particular cell. These values are data-entered by the user in the Target Cell Spreadsheet (TCS). Only one of the fields (StringValue, NumberValue, DatetimeValue) is populated for any given row, depending on the data type of the custom attribute (as specified in UA_AttributeDef). Attributes are displayed in the target cell spreadsheet in AttributeID order.

Table 22. UA_CellAttribute field descriptions

Table 23. UA_CellAttribute parent tables

Table name	Description
UA_TargetCells	This table stores information on target cells created in all flowcharts. Target cells are defined as cells that are attached to an output process (Mail List, Call List, Recommend, Deliver, Snapshot, or Optimize). It stores meta data information (name, code), source info (campaign, flowchart and cell IDs), treatment data (list of assigned offers/offer lists and whether it is a control cell), and whether the cell was created top-down in the Target Cell Spreadsheet (TCS) or bottom-up from within a flowchart.
UA_AttributeDef	The UA_AttributeDef table contains the definitions of both system and custom attributes for offers and cells (campaign custom attributes are stored in the UA_CampAttribute table). System-defined attributes have the field SystemDefined=1. Offers (OfferTemplates, Offers, OfferHistory) and Cells use these attribute definitions. This table is written to when the Save button is invoked from the Custom attribute definition page. Each attribute creates one row in this table, identified by the unique ID AttributeID. After an attribute is initially created, some fields like the AttributeType and

Table 23. UA_CellAttribute parent tables (continued)

Table name	Description
	Length fields cannot be modified (see individual fields for further info).

UA_ContactHistory

User-created table that stores the required contact fields (AudienceID, CellID, PackageID, ContactDateTime, ContactStatusID, and so forth) plus any user-defined additionally tracked fields. There is a separate table for each audience level. Rows in this table are written if the CSP logging table has "Log to contact history tables" enabled. This table captures cell membership information and identifies cells treated in the same CSP by packageID (all contacts made to the same audience entity in the same CSP is part of the same "package", which represents an interruption). Both target cells and hold-out controls are written to contact history (CH). Existing entries in this table can be updated (ContactStatus, UpdateDateTime, and user-defined fields) using the Track process. The Track process cannot create new rows in this table. This table is required for tracking contacts. This is also used by Unica Optimize (ACO) for applying optimization to contacts. This "base" contact history table is populated simultaneously with the UA_Treatment, UA_OfferHistory, and UA_OfferHistAttrib tables (together all of these tables make up "contact history"). None of these tables are written if log to contact history is not enabled in a CSP.

Table 24. UA_ContactHistory field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
CustomerID	BIGINT	NOT NULL	This field represents the audience level (which may comprise one or more fields). These fields are auto-matically output based	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes

Table 24. UA_ContactHistory field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			on the current incoming audience level of the input cell(s). **Valid Values:** Any valid audience ID		**System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No
CellID	BIGINT	NOT NULL	UC automatically populates the CellID of the incoming cell in which the audienceID belongs. If the same audienceID is a member of multiple cells, that audienceID has one row in this table for each cell in which they are a member.	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes

Table 24. UA_ContactHistory field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: Any valid CellID in UA_Target-Cells		**System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No
PackageID	BIGINT	NOT NULL	This is a globally unique ID that ties together multiple cells treated in the same CSP and represents the concept of a package (or interruption). It is up to the user to ensure all offers used in a single CSP are on the same channel (no enforcement); otherwise PackageID doesn't correctly rep-	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No

Table 24. UA_ContactHistory field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			resent "interruptions" to the audience ID. PackageID is based on ProcessID and RunID. A new package ID is generated for each flowchart run, branch run or process run. The package ID does not change for a test flow-chart run, test branch run or test process run. **Valid Values:** Global-ly unique positive in-teger within the inter-nalIDLowerLimit and internalIDUpperLim-it configuration para-meter values for gen-erated values (may be outside this range for campaigns imported from another system using sesutil).		**User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Exe-cute?** Yes **Configuration?** No
ContactDateTime	TIMES-TAMP	NULL	The datetime when the communication is ex-pected to reach the au-dience ID (e.g., the in-	23,3	**Is Primary Key?** No **Is Foreign Key?** No

Table 24. UA_ContactHistory field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			home date for direct mail). The default value is the CSP run datetime, but this value can be set by the user in the CSP (Contact Date field under "More Options" on Logging tab). It is a constant value for all offers given in a single CSP (as it must represent a single interruption). **Valid Values:** Valid datetime		**Required Field?** Yes **System Generated?** Yes **System Generated Override?** Yes **User Entered?** Yes **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** Yes
UpdateDateTime	TIMESTAMP	NULL	This field contains the most recent datetime that this row was updated by the Track process (typically to update the ContactStatusID); same as CreateDateTime for initial row creation.	23,3	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes

Table 25. UA_ContactHistory parent tables

Table name	Description
UA_Time	This table holds time information identifying information about the hours and minutes for a particular time. It is used to faciliate reporting. This table must be populated as part of the implementation setup.
UA_ContactStatus	This table contains the valid contact statuses (defined at implementation time) that can be used to log to contact

Table 25. UA_ContactHistory parent tables (continued)

Table name	Description
	history. There must be one row designated as the default contact status (Defaults = 1). There is no GUI for creating, viewing, or updating contact statuses. These must be maintained directly in the system table.
UA_Calendar	This table holds calendar information identifying information about calendar quarters, days of the week, first and last days of the week, etc. It is used to facilitate reporting over time. It is expected that this table will be customized by customers during implementation. It is the responsibility of the implementation to ensure that dates referenced in Contact history are contained in the time span covered by this table.

UA_ContactStatus

This table contains the valid contact statuses (defined at implementation time) that can be used to log to contact history. There must be one row designated as the default contact status (IsDefault = 1). There is no GUI for creating, viewing, or updating contact statuses. These must be maintained directly in the system table.

Table 26. UA_ContactStatus field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
ContactStatusID	BIGINT	NOT NULL	System-generated unique ID representing the contact status. **Valid Values:** Globally unique positive integer within the inter-	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes

			sponse types in the Name field (CSD=Campaign Send, DLV=Delivered, UNDLV=Undelivered, CTRL=Control).		**Stored Save?** No **Stored Execute?** No **Configuration?** Yes
CountsAsContact	INTEGER	NULL	Specifies whether this contact status counts as a contact to the recipient; used for reporting and by Unica Optimize to manage contact fatigue. **Valid Values:** 0=Does NOT count as a successful contact. 1=Counts as a successful contact.	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No

Table 26. UA_ContactStatus field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? Yes
Defaults	INTEGER	NULL	Exactly one row in the UA_ContactStatus table must have a value of 1 and exactly one row must have a value of 2 (for controls). The rest must have values of 0. The row with value 1 is used as the default contact status written by CSPs and the Track process (can be user overridden). The row with value 2 is used as the default contact status for controls. **Valid Values:** 0 = not default, 1 = default, 2 = default contact status for controls	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes

Table 27. UA_ContactStatus child tables

Table name	Description
UA_ContactHistory	User-created table that stores the required contact fields (AudienceID, CellID, PackageID, ContactDateTime, ContactStatusID, and so forth) plus any user-defined additionally tracked fields. There is a separate table for each audience level. Rows in this table are written if the CSP logging table has "Log to contact history tables" enabled. This table captures cell membership information and identifies cells treated in the same CSP by packageID (all contacts made to the same audience entity in the same CSP is part of the same "package", which represents an interruption). Both target cells and hold-out controls are written to contact history (CH). Existing entries in this table can be updated (ContactStatus, UpdateDateTime, and user-defined fields) using the Track process. The Track process cannot create new rows in this table. This table is required for tracking contacts. This is also used by Unica Optimize (ACO) for applying optimization to contacts. This "base" contact history table is populated simultaneously with the UA_Treatment, UA_OfferHistory, and UA_OfferHistAttrib tables (together all of these tables make up "contact history"). None of these tables are written if log to contact history is not enabled in a CSP.
UA_DtlContactHist	This table stores exactly which audience IDs received which offer versions in the offer personalization (sub-cell) case where not all individuals in the same cell receive exactly the same offers. They may receive a different # of offers and/or different offer versions. This table has rows written to it only when UA_Treatment.HasDetailHistory = 1.

UA_CustomMacros

This table stores custom macros for reuse across users and flowcharts. It stores the query name, query (which can be raw SQL or Campaign macro language) and description. The custom macro can take input parameters and return a data value with each audience ID.

Table 28. UA_CustomMacros field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
FolderID	BIGINT	NOT NULL	Folder ID for the folder where the custom macro is stored. Value is automatically populated based on the folder where the object is stored. User can change this value by "moving" the object to a different folder. **Valid Values:** Any valid FolderID value existing in UA_Folder table	19	**Is Primary Key?** No **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 28. UA_CustomMacros field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
Name	VAR-CHAR	NOT NULL	Name of the macro; must be globally unique. If the custom macro requires input parameters, they must be comma-separat-ed and listed inside parentheses. E.g., "My-SumGroupBy(id, table, field)" **Valid Values:** Any text characters, minus standard disallowed special name charac-ters for Campaign ex-pression names	255	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Gener-ated?** No **System Gener-ated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Exe-cute?** No **Configuration?** No
Description	VAR-CHAR	NULL	Optional description of custom macro in the first row of a spe-cific derived field; con-	1024	**Is Primary Key?** No **Is Foreign Key?** No

Table 28. UA_CustomMacros field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			tains an index number (2-n) only when the predicateexpr exceeds the field length and is stored across multiple rows. **Valid Values:** Any text characters minus standard disallowed special characters in text OR number 2 through N		**Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
Expression	VAR-CHAR	NULL	Text representing the macro expression. Variable names must be enclosed in angle brackets. E.g., "Select <id>, sum(<field>) from table <table> group by <id>"	2000	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No

Table 28. UA_CustomMacros field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: Any valid SQL or Unica language expression		**System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
ExpressionType	INTEGER	NULL	Type of expression (specified by the user when creating the custom macro). The expression can be an Unica language expression that returns a list of audience IDs to be match-merged, a raw SQL expression returning an ID list, a raw SQL expression that returns paired IDs and a value (text or numeric),	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No

Table 28. UA_CustomMacros field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			or a raw SQL fragment (just pasted in as text substitution). **Valid Values:** 0=Affinium, 1=SQL List, 2=SQL Value		**User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
DataSrcName	VAR-CHAR	NULL	Name of datasource. This field is not populated if you are using an "Affinium" (Campaign) expression type. Configured data source names are displayed to the user for selection. **Valid Values:** dbconfig.lis was used in AC 5.x, AC 6.x. Please remove the word dbconfig.lis and say "Valid data source name."	255	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes

Table 28. UA_CustomMacros field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? Yes
					Stored Execute? No
					Configuration? No
DataVarType	INTEGER	NULL	Whether a returned data value in a raw SQL expression is a numeric or string data type. Required if ExpressionType = 2. **Valid Values:** 7=Numeric, 8=Text	10	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? No
					System Generated? No
					System Generated Override? No
					User Entered? Yes
					Stored Create? Yes
					Stored Save? Yes
					Stored Execute? No

					System Generated? No **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** No

Table 29. UA_CustomMacros parent tables

Table name	Description
UA_Folder	This table contains the basic data for all internal folders for object storage in the system. A new row is created each time a new folder is created for storing any of system object (e.g., campaign, session, offer, segment, custom macro, derived field, etc.).

UA_DerivedField

This table stores derived fields for reuse across users and flowcharts. It stores the name, definition, and description. New derived fields created within the campaign are stored in this table by using the Create Derived Field window. Long predicate expressions may span multiple rows using the Description field as a numeric index to stitch together the multiple rows.

Table 30. UA_DerivedField field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
FolderID	BIGINT	NOT NULL	Folder ID for the folder where the object is stored. Value is automatically populated based on the folder where the object is stored. User can change this value by "moving" the object to a different folder. **Valid Values:** Any valid FolderID value existing in UA_Folder table	19	**Is Primary Key?** No **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No

Table 30. UA_DerivedField field descriptions (continued)

Table 33. UA_DtlContactHist parent tables

Table name	Description
UA_Time	This table holds time information identifying information about the hours and minutes for a particular time. It is used to faciliate reporting. This table must be populated as part of the implementation setup.
UA_ContactStatus	This table contains the valid contact statuses (defined at implementation time) that can be used to log to contact history. There must be one row designated as the default contact status (IsDefault = 1). There is no GUI for creating, viewing, or updating contact statuses. These must be maintained directly in the system table.

Table 33. UA_DtlContactHist parent tables (continued)

Table name	Description
UA_Calendar	This table holds calendar information identifying information about calendar quarters, days of the week, first and last days of the week, etc. It is used to facilitate reporting over time. It is expected that this table will be customized by customers during implementation. It is the responsibility of the implementation to ensure that dates referenced in Contact history are contained in the time span covered by this table.

UA_EnumAttrValues

This table holds all the drop-down list (enumerated) data values for custom attributes where UA_AttributeDef.EnumType = 1 or 2.

Table 34. UA_EnumAttrValues field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
AttributeID	BIGINT	NOT NULL	The AttributeID to which the value belongs. **Valid Values:** Any valid AttributeID in UA_AttributeDef	19	**Is Primary Key?** No **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No

Table 35. UA_EnumAttrValues parent tables

Table name	Description
UA_AttributeDef	The UA_AttributeDef table contains the definitions of both system and custom attributes for offers and cells (campaign custom attributes are stored in the UA_CampAttribute table). System-defined attributes have the field SystemDefined=1. Offers (OfferTemplates, Offers, OfferHistory) and Cells use these attribute definitions. This table is written to when the Save button is invoked from the Custom attribute definition page. Each attribute creates one row in this ta-

Table 35. UA_EnumAttrValues parent tables (continued)

Table name	Description
	ble, identified by the unique ID AttributeID. After an attribute is initially created, some fields like the AttributeType and Length fields cannot be modified (see individual fields for further info).

UA_Flowchart

This table stores information for all flowcharts. It has one row for each flowchart in the system and is also used for reporting on the running flowcharts (status) in the system.

Table 36. UA_Flowchart field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
FlowchartID	BIGINT	NOT NULL	Unique identifier of the flowchart. This ID is assigned by the system when a flowchart is created. **Valid Values:** Globally unique positive integer within the internalIDLowerLimit and internalIDUpperLimit configuration parameter values for generated values (may be outside this range for campaigns imported	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes

			rity policies in which the user has a role are displayed as choices). **Valid Values:** Any valid PolicyID from Unica Marketing Platform's usm_roletable.		
ACLID	INTEGER	NULL	For future use.	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No

Table 36. UA_Flowchart field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? No

Table 37. UA_Flowchart parent tables

Table name	Description
UA_Session	Stores information about sessions created in Campaign.
UA_Campaign	This table contains campaign metadata provided by the user and basic run information. One row is written this table each time a new campaign is created and saved. Related tables (UA_CampToSegment, UA_CampToOffer, and UA_Flowchart) are not updated until those relationships/links or objects are created. That is, a UA_Flowchart record is created only when a new flowchart is added to the campaign. The UA_CampaignExtAttr is populated at the same time with any campaign custom attribute values.

UA_FlowchartSeg

This table contains all of the relationships between segments and flowcharts. It will define when a segment is created by a flowchart and/or when a segment is simply reference by the interactive flowchart. By having this table we can ensure that FK relationships are enforced at the DB level.

Table 38. UA_FlowchartSeg field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
SegmentID	BIGINT	NOT NULL	Unique identifier of segment. This ID is assigned by the system when a segment is created. **Valid Values:** Any valid SegmentID from UA_Segment	19	**Is Primary Key?** Yes **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
FlowchartID	BIGINT	NOT NULL	The flowchart ID that references a particular segment.	19	**Is Primary Key?** Yes **Is Foreign Key?** No

Table 38. UA_FlowchartSeg field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: Any valid FlowchartID in UA_-Flowchart table		**Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
RefType	INTEGER	NOT NULL	RefType ties the UA_-FlowchartSeg table to the UA_SegRefType table. This column defines how the flowchart references the segment. As an example, some flowcharts are the creators of seg-	10	**Is Primary Key?** No **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes

Table 38. UA_FlowchartSeg field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			ments, while others use existing segments. Batch flowcharts always have the value 1 (creator). Unless you have Interact incorporated in your environment, the value will never be 2 (referencer) for batch flowcharts. A value of 2 is used only for Interactive flowcharts. **Valid Values:** Any valid RefType from UA_SegRefType (for consistency).		**System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** Yes **Configuration?** No

Table 39. UA_FlowchartSeg parent tables

Table name	Description
UA_SegRefType	A lookup table that is prepoluated with the valid references types.
UA_Segment	This table stores information on the strategic/smart segments created by the CreateSeg/PopulateSeg process. It is populated when a CreateSeg process is created and saved in a flowchart and subsequently updated when the CreateSeg process is run.

UA_FlowchartTmpl

This table stores meta data for flowchart templates. It is populated when a user chooses Tools->Stored Templates from the flowchart menu.

Table 40. UA_FlowchartTmpl field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
FolderID	BIGINT	NOT NULL	Folder ID for the folder where the object is stored. Value is automatically populated based on the folder where the object is stored. User can change this value by "moving" the object to a different folder. **Valid Values:** Any valid FolderID value existing in UA_Folder table	19	**Is Primary Key?** Yes **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** Yes **User Entered?** Yes **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No

Table 40. UA_FlowchartTmpl field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
Name	VAR-CHAR	NOT NULL	Name of the flowchart template; must be unique within the folder in which it is stored. **Valid Values:** Any text characters, minus standard disallowed special name characters	64	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
Description	VAR-CHAR	NULL	Optional, free-form description of the flowchart template.	1024	**Is Primary Key?** No **Is Foreign Key?** No

Table 43. UA_Folder child tables

Table name	Description
UA_Campaign	This table contains campaign metadata provided by the user and basic run information. One row is written this table each time a new campaign is created and saved. Related tables (UA_CampToSegment, UA_CampToOffer, and UA_Flowchart) are not updated until those relationships/links or objects are created. That is, a UA_Flowchart record is created only when a new flowchart is added to the campaign. The UA_CampaignExtAttr is populated at the same time with any campaign custom attribute values.
UA_CustomMacros	This table stores custom macros for reuse across users and flowcharts. It stores the query name, query (which can be raw SQL or HCL Campaign macro language) and de-

Table 43. UA_Folder child tables (continued)

Table name	Description
	scription. The custom macro can take input parameters and return a data value with each audience ID.
UA_DerivedField	This table stores derived fields for reuse across users and flowcharts. It stores the name, definition, and description. New derived fields created within the campaign are stored in this table by using the Create Derived Field window. Long predicate expressions may span multiple rows using the Description field as a numeric index to stitch together the multiple rows.
UA_FlowchartTmpl	This table stores meta data for flowchart templates. It is populated when a user chooses all or some process boxes of a flowchart, right clicks and selects 'Copy to template library'. In doing this, the flowchart logic gets saved which can be reused in some other flowchart.
UA_Offer	This table stores basic information about offers. All offer attributes are now stored in UA_OfferAttribute table. Each offer is associated with the Offer Template that was used to create the offer. During offer creation, the creator can change the values for the static attributes and default values for the parameterized attributes. Actual values of the parameterized attributes are assigned at the flowchart design time or at the flowchart run time.
UA_OfferList	This table stores both internal and user-created offer lists. User-created offer lists can be static (fixed list of offers) or smart (dynamic; based on a query). Internally generated offer lists are used to group together the actual list of offers assigned to a specific cell in a CSP when multiple offers are

Table 43. UA_Folder child tables (continued)

Table name	Description
	assigned. Internal offer lists may reference user-created of-fer lists (only one level of nesting supported).
UA_Segment	This table stores information on the strategic segments created by the Create Seg process. It is populated when a CreateSeg process is created and saved in a flowchart and subsequently updated when the CreateSeg process is run. A temporary copy of the row is created (with TempFlag=1) when the flowchart containing the CreateSeg process box is being edited or run.
UA_Session	Stores information on sessions created in Unica Campaign.
UA_TableCatalog	This table stores information on all table catalogs available in Unica Campaign.
UA_Triggerlist	This table stores a name, definition, and note for each outbound trigger sent through the Schedule and Contact processes. A trigger executes a command line, which can be a batch file or a script.
UACO_OptSession	An entry in this table represents a single Optimize session with all of its metadata.

UA_IDSByType

This table contains the next valid ID for various object types (for the Primary key to be used for a new row to be inserted in each table in the Unica Campaign system). These are used by the system to generate globally unique IDs in the system and prevent the need for uniqueness checking. This table maintains a counter for each type of the object (table). Every time a new row is created, the current value of the counter is used for the primary key, and the counter is incremented.

Table 44. UA_IDSByType field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
TypeID	BIGINT	NOT NULL	Unique identifier for the specific type of object. **Valid Values:** 0-49 as defined here: ID_Unica CampaignID=0, ID_-ChannelID=1, ID_CreativeID=2, ID_CubeID=3, ID_FlowchartID=4, ID_FolderID=5, ID_OfferID=6, ID_OfferTrackID=7, ID_ResponseID=8, ID_SegmentID=9, ID_SessionID=10, ID_ACOSessionID=11, ID_OptimizeID=12, ID_ContactTrackID=13, ID_ResponseTrackID=14, ID_OfferGroupID=15, ID_OfferHistoryID=16, ID_RunID=17, ID_TreatmentID=18, ID_TargetCellID=19, ID_OfferTemplateID=20, ID_RuleID=21, ID_OfferListId=22, ID_AttributeDef=23, ID_Response-	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** Yes **Configuration?** No

					System Generated Override? No **User Entered?** No **Stored Create?** No **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 47. UA_Offer parent tables

Table name	Description
UA_OfferTemplate	This table contains one row for each offer template defined in the system (these are used to create offers). For each offer template, it defines the number of offer codes, their formats, and the offer code generator; the treatment code format and generator; and general offer template meta data.
UA_Folder	This table contains the basic data for all internal folders for object storage in the system. A new row is created each time a new folder is created for storing any of system object (e.g., campaign, session, offer, segment, custom macro, derived field, etc.).

Table 48. UA_Offer child tables

Table name	Description
UA_CampToOffer	This table stores top-down defined relationships between a campaign and its related offers (specified by the user from the Campaign summary page by clicking on "Add/Remove Offers" link). This can be a many-to-many mapping. Bottom-up offers (offers used in a flowchart of the campaign) are not stored in this table.
UA_OfferAttribute	This table stores the values of the static attributes and default values of the parameterized attributes associated with an offer (system-generated and custom).
UA_OfferHistory	This table stores all offer versions that have been given out to customers. It determines if a particular combination of parameterized offer attributes (offer version identified by OfferHistoryID) for a given offer (offerID) has already been created (using the CRC value). The UA_OfferHistory table is populated only once for each unique offer version. If the UA_OfferHistory table is already populated for an offer, it will not be populated again if contact history is updated for the same offer.
UA_OfferToProduct	This table stores the information about the relationship between offers and products, specified by the "Relevant Product(s)" field. It is only populated if the user specifies a value for the Relevant Product(s) field of an offer.
UA_ProductIndex	This table stores the many-to-many relationship between products and offers based on the ProductIDs that match the "product query" associated with an offer (from the Related Product(s) field).It is used to quickly resolve the set of products associated with a particular offer for response tracking without having to re-run the UA_OfferToProduct.

Table 48. UA_Offer child tables (continued)

Table name	Description
	ProductCondition query. This above line should appear for UA_ProductIndex table but is somehow appearing for UA_ResponseHistory table.
UA_Treatment	Stores all treatments (intersection of offer to target cells at a point in time (run instance) and related data. If multiple offers are assigned to a cell, there will be multiple rows in the treatment table (one treatment for each offer given to the cell). If a personalized offer is used, a treatment will be created for each unique permutation of offer attributes used (here, HasDetailHistory=1 and contact information is stored in a separate table, UA_DtlContactHistory). This data is populated during a production run of a CSP only when 'Log to contact history' is enabled.
UACO_ROffer	This table contains the set of offers that constrains the given rule for the given subsection.
UACO_PCT0000000000	This is an example table, built per Optimize session, based on the UACO_PCTBase table.
UACO_SesnOffer	This table contributes to the definition of two items: the score matrix and the "displayed offers" used in the session.

UA_OfferAttribute

This table stores the values of the static attributes and default values of the parameterized attributes associated with an offer (system-generated and custom).

Table 49. UA_OfferAttribute field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
OfferID	BIGINT	NOT NULL	The OfferID of the offer for whom this attribute value is associated. **Valid Values:** Any valid OfferID in UA_Offer table	19	**Is Primary Key?** Yes **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No

Table 50. UA_OfferAttribute parent tables

Table name	Description
UA_Offer	This table stores basic information about offers. All offer attributes are now stored in UA_OfferAttribute table. Each offer is associated with the Offer Template that was used to create the offer. During offer creation, the creator can change the values for the static attributes and default values for the parameterized attributes. Actual values of the parameterized attributes are assigned at the flowchart design time or at the flowchart run time.
UA_AttributeDef	The UA_AttributeDef table contains the definitions of both system and custom attributes for offers and cells (campaign custom attributes are stored in the UA_CampAttribute table). System-defined attributes have the field SystemDefined=1. Offers (OfferTemplates, Offers, OfferHistory) and Cells use these attribute definitions. This table is written to

Table 50. UA_OfferAttribute parent tables (continued)

Table name	Description
	when the Save button is invoked from the Custom attribute definition page. Each attribute creates one row in this table, identified by the unique ID AttributeID. After an attribute is initially created, some fields like the AttributeType and Length fields cannot be modified (see individual fields for further info).

UA_OfferHistAttrib

This table stores the actual values used for parameterized (only) offer attributes when an offer is used (given out in a flowchart production run with logging to CH enabled). It is populated at flowchart run time.

Table 51. UA_OfferHistAttrib field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
AttributeID	BIGINT	NOT NULL	The AttributeID of the offer attribute whose value is being stored **Valid Values:** Any valid AttributeID in UA_AttributeDef table	19	**Is Primary Key?** Yes **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No

Table 52. UA_OfferHistAttrib parent tables

Table name	Description
UA_OfferHistory	This table stores all offer versions that have been given out to customers. It determines if a particular combination of parameterized offer attributes (offer version identified by OfferHistoryID) for a given offer (offerID) has already been created (using the CRC value). The UA_OfferHistory table is populated only once for each unique offer version. If the UA_OfferHistory table is already populated for an offer, it will not be populated again if contact history is updated for the same offer.
UA_AttributeDef	The UA_AttributeDef table contains the definitions of both system and custom attributes for offers and cells (campaign custom attributes are stored in the UA_CampAttribute table). System-defined attributes have the field SystemDefined=1. Offers (OfferTemplates, Offers, OfferHistory) and Cells use these attribute definitions. This table is written to when the Save button is invoked from the Custom attribute definition page. Each attribute creates one row in this table, identified by the unique ID AttributeID. After an attribute is initially created, some fields like the AttributeType and Length fields cannot be modified (see individual fields for further info).

UA_OfferHistory

This table stores all offer versions that have been given out to customers. It determines if a particular combination of parameterized offer attributes (offer version identified by OfferHistoryID) for a given offer (offerID) has already been created (using the CRC value). The UA_OfferHistory table is populated only once for each unique offer version. If the

UA_OfferHistory table is already populated for an offer, it will not be populated again if contact history is updated for the same offer.

Table 53. UA_OfferHistory field descriptions

Table 54. UA_OfferHistory parent tables

Table name	Description
UA_Offer	This table stores basic information about offers. All offer attributes are now stored in UA_OfferAttribute table. Each offer is associated with the Offer Template that was used to create the offer. During offer creation, the creator can change the values for the static attributes and default values for the parameterized attributes. Actual values of the parameterized attributes are assigned at the flowchart design time or at the flowchart run time.

Table 55. UA_OfferHistory child tables

Table name	Description
UA_OfferHistAttrib	This table stores the actual values used for parameterized (only) offer attributes when an offer is used (given out in a flowchart production run with logging to CH enabled). It is populated at flowchart run time.
UA_Treatment	Stores all treatments (intersection of offer versions to target cells at a point in time (run instance) and related data. If multiple offers are assigned to a cell, there are multiple rows in the treatment table (one treatment for each offer version given to the cell). If offer personalization is used, a treatment is created for each unique permutation of offer attributes (offer version) used (and HasDetailHistory=1 and contact information is stored in a separate table, UA_DtlContactHistory). This data is populated during a production run of a CSP only when logging is enabled.

UA_OfferList

This table stores both internal and user-created offer lists. User-created offer lists can be static (fixed list of offers) or smart (dynamic; based on a query). Internally generated offer lists are used to group together the actual list of offers assigned to a specific cell in a CSP when multiple offers are assigned. Internal offer lists may reference user-created offer lists (only one level of nesting supported).

Table 56. UA_OfferList field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
OfferListID	BIGINT	NOT NULL	Unique identifier for the offer list generated	19	**Is Primary Key?** Yes

Table 56. UA_OfferList field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			by the system when an offer list is created. **Valid Values:** Globally unique positive integer within the internalIDLowerLimit and internalIDUpperLimit configuration parameter values for generated values (may be outside this range for campaigns imported from another system using sesutil).		**Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
Name	VAR-CHAR	NULL	For user-created offer lists, this is the user-specified offer list name, which must be unique within the offer folder. For internally generated offer lists,	64	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes

Field is used by Plan to associate Unica Campaign offerlist and Unica Plan Offerlist objects. **Valid Values:** Long	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 57. UA_OfferList parent tables

Table name	Description
UA_Folder	This table contains the basic data for all internal folders for object storage in the system. A new row is created each time a new folder is created for storing any of system object (e.g., campaign, session, offer, segment, custom macro, derived field, etc.).

Table 58. UA_OfferList child tables

Table name	Description
UA_OfferListMember	This table stores the members of an offer list. For a user-defined static offer list, this contains the list of OfferIDs and their display order and is populated when the offer list is saved. For a user-defined smart offer list, this table contains the list of folders to which the smart query has been scoped (if any). For an internal offer list, this tables stores any referenced (nested) offer lists. The members can be any of these: o an individual offer o an offerList o a folder Each offer list member must be exactly one of the above.
UA_TargetCells	This table stores information on target cells created in all flowcharts. Target cells are defined as cells that are attached to an output process (Mail List, Call List, Recommend, Deliver, Snapshot, or Optimize). It stores meta data information (name, code), source info (campaign, flowchart and cell IDs), treatment data (list of assigned offers/offer lists and whether it is a control cell), and whether the cell was created top-down in the Target Cell Spreadsheet (TCS) or bottom-up from within a flowchart.
UACO_ROfferList	This table contains the set of offer lists that constrain the given rule for the given subsection.

UA_OfferListMember

This table stores the members of an offer list. For a user-defined static offer list, this contains the list of OfferIDs and their display order and is populated when the offer list is saved. For a user-defined smart offer list, this table contains the list of folders to which the smart query has been scoped (if any). For an internal offer list, this tables stores any referenced (nested) offer lists. The members can be any of these: o an individual offer o an offerList o a folder Each offer list member must be exactly one of the above.

Table 59. UA_OfferListMember field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
OfferListID	BIGINT	NOT NULL	Unique ID for the offer list to which this row is associated **Valid Values:** Any valid OfferListID in UA_OfferList	19	**Is Primary Key?** No **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes

Table 59. UA_OfferListMember field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Execute? No **Configuration?** No
NestedOfferListID	BIGINT	NULL	This field can be populated only if the UA_OfferList.OfferListType = 3 (internal list); it contains an OfferListID assigned to a cell within a flowchart CSP. It is populated on save of the flowchart. **Valid Values:** Any valid OfferListID in UA_OfferList	19	**Is Primary Key?** No **Is Foreign Key?** Yes **Required Field?** No **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 59. UA_OfferListMember field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
OfferID	BIGINT	NULL	When UA_OfferList.OfferListType = 1 (static), this field is populated with the OfferIDs that are members of the static offer list. When UA_OfferList.OfferListType = 3 (internal), this field contains any directly assigned offers to the cell (not those appearing as part of a user-created offer list). This field is NULL for UA_OfferList.OfferListType = 2. **Valid Values:** Any valid OfferID in UA_Offer table	19	**Is Primary Key?** No **Is Foreign Key?** Yes **Required Field?** No **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
FolderID	BIGINT	NULL	Folder ID for the folder where the object is stored. Value is automatically populat-	19	**Is Primary Key?** No **Is Foreign Key?** No

Table 59. UA_OfferListMember field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			ed based on the folder where the object is stored. User can change this value by "moving" the object to a different folder. **Valid Values:** Any valid FolderID value existing in UA_Folder table		**Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
DisplayOrder	INTEGER	NULL	This field specifies the order in which offers in a static offer list are displayed to the user; it is populated only when UA_OfferList.OfferListType = 1 (otherwise it is NULL).	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No

Table 59. UA_OfferListMember field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: NULL or positive integer starting with one and incrementing by one for each OfferID member of the same OfferListID		**System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 60. UA_OfferList parent tables

Table name	Description
UA_OfferList	This table stores both internal and user-created offer lists. User-created offer lists can be static (fixed list of offers) or smart (dynamic; based on a query). Internally generated offer lists are used to group together the actual list of offers assigned to a specific cell in a CSP when multiple offers are assigned. Internal offer lists may reference user-created offer lists (only one level of nesting supported).
UA_OfferList	This table stores both internal and user-created offer lists. User-created offer lists can be static (fixed list of offers) or smart (dynamic; based on a query). Internally generated of-

Table name	Description
	fer lists are used to group together the actual list of offers assigned to a specific cell in a CSP when multiple offers are assigned. Internal offer lists may reference user-created offer lists (only one level of nesting supported).
UA_Offer	This table stores basic information about offers. All offer attributes are now stored in UA_OfferAttribute table. Each offer is associated with the Offer Template that was used to create the offer. During offer creation, the creator can change the values for the static attributes and default values for the parameterized attributes. Actual values of the parameterized attributes are assigned at the flowchart design time or at the flowchart run time.

UA_OfferListRes

This table stores the offerIDs that a dynamic offer list resolves to at run-time.

Table 61. UA_OfferListRes field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
OLResolveID	BIGINT	NOT NULL	Unique ID for the this row. **Valid Values:** Globally unique positive integer within the internalIDLowerLimit and internalIDUpperLimit configuration parameter	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes

Table 61. UA_OfferListRes field descriptions (continued)

			values for generated values		**System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No
OfferListID	BIGINT	NOT NULL	Specifies the Offer-ListID that is being re-solved. **Valid Values:** Any valid OfferListID in the UA_-OfferList table	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No

Table 61. UA_OfferListRes field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					User Entered? No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No
OfferID	BIGINT	NOT NULL	Lists an offer ID that is in the specified Offer-ListID. **Valid Values:** Any valid OfferID in the UA_Offer table	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No

Table 61. UA_OfferListRes field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? No **Stored Execute?** Yes **Configuration?** No

UA_OfferSuppression

The UA_OfferSuppression table contains rules for suppressing offers that are presented to visitors during interactive sessions. Rules for suppressing offers are triggered by acceptance or rejection events, by frequency of presentation, or by a rule's similarity to a related rule that is also suppressed. This table also maintains the criteria for when Interact should no longer suppress a rule, such as after a specified period of time has elapsed.

Table 62. UA_OfferSuppression field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
OfferID	BIGINT	NOT NULL	The ID of the offer this suppression rule is targeted to.	19	**Is Primary Key?** Yes
SuppressionType	INTEGER	NOT NULL	The type of this suppression rule, i.e., which type of events will trigger this suppression rule: 1=ac-	10	**Is Primary Key?** Yes

Table 62. UA_OfferSuppression field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			cept event, 2=reject event, 3=contact event.		
ResponseTypeCode	VAR-CHAR	NULL	In addition to the event type, the response type code that must be included in the event in order for this rule to be triggered.	64	**Is Primary Key?** No
EventCount	INTEGER	NULL	The number of occurrences this event has to be posted for this rule to be triggered.	10	**Is Primary Key?** No
AttributeID	BIGINT	NULL	Once this suppression rule is triggered, in addition to the same offer, it may also apply to other offers that have the same attribute and same value for this attribute. If this column is null, no other offers will be affected. Otherwise, if another offer has the same attribute which has the same value as the one defined in StringValue, NumberValue, or Date-	19	**Is Primary Key?** No

Table 62. UA_OfferSuppression field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			timeValue, then that offer is suppressed.		
StringValue	VAR-CHAR	NULL	The value of the string-typed attribute for matching other associated offers.	1024	**Is Primary Key?** No
NumberValue	DOUBLE	NULL	The value of the number-typed attribute for matching other associated offers.	53	**Is Primary Key?** No
DatetimeValue	TIMES-TAMP	NULL	The value of the date-time-typed attribute for matching other associated offers.	23,3	**Is Primary Key?** No
SuppressionDuration	INTEGER	NULL	The length in days this suppression rule will remain effective from the time it is triggered.	10	**Is Primary Key?** No

UA_OfferTemplate

This table contains one row for each offer template defined in the system (these are used to create offers). For each offer template, it defines the number of offer codes, their formats, and the offer code generator; the treatment code format and generator; and general offer template meta data.

Table 63. UA_OfferTemplate field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
OfferTemplID	BIGINT	NOT NULL	Unique identifier for the offer template generated by the system when an offer template is created. **Valid Values:** Globally unique positive integer within the internalIDLowerLimit and internalIDUpperLimit configuration parameter values for generated values (may be outside this range for Unica Campaigns imported from another system using sesutil).	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
Name	VARCHAR	NULL	This is the unique name of the offer template.	64	**Is Primary Key?** No **Is Foreign Key?** No

Table 63. UA_OfferTemplate field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: Any text characters, minus standard disallowed special name characters		**Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
Description	VAR-CHAR	NULL	Optional description of offer template. **Valid Values:** Any text characters minus standard disallowed special characters in text	512	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** Yes

Table 63. UA_OfferTemplate field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
NumberOfOffer-Codes	INTEGER	NULL	The number of offer code parts/components for offers to be created from this template (default = 1). **Valid Values:** A whole number between 1-5	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** Yes

Table 63. UA_OfferTemplate field descriptions (continued)

Table 64. UA_OfferTemplate child tables

Table name	Description
UA_Offer	This table stores basic information about offers. All offer attributes are now stored in UA_OfferAttribute table. Each offer is associated with the Offer Template that was used to create the offer. During offer creation, the creator can change the values for the static attributes and default values for the parameterized attributes. Actual values of the parameterized attributes are assigned at the flowchart design time or at the flowchart run time.
UA_OfferTemplAttr	This table stores the offer attribute values associated with a particular offer template and specifies whether each attribute is hidden, parameterized, its default value, and display order. Note that only one of the fields StringValue, NumberValue and DatetimeValue contain the value for the attribute based on the attributeType defined in the UA_AttributeDef table.

UA_OfferTemplAttr

This table stores the offer attribute values associated with a particular offer template and specifies whether each attribute is hidden, parameterized, its default value, and display order. Note that only one of the fields StringValue, NumberValue and DatetimeValue contain the value for the attribute based on the attributeType defined in the UA_AttributeDef table.

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: 0=static; 1=parameterized		**Configuration?** No
IsHidden	INTEGER	NULL	Specifies whether the offer attribute is hidden (i.e., whether the offer attribute is displayed to the user when creating or viewing an offer). Hidden attributes must have a default value when the offer template is created. **Once an offer template has been used (i.e., an offer has been created using this offer template), the hidden state of offer attributes associated with the offer template cannot be changed. **Valid Values:** 0=displayed; 1=hidden	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
DisplayOrder	INTEGER	NULL	An internal sequence number that specifies	10	**Is Primary Key?** No

Table 65. UA_OfferTemplAttr field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			the order in which the offer attributes are when a user is creating, editing, or viewing an offer. The user controls the display order of offer attributes by moving them up and down in the Offer Attribute page of the Offer Template Definition wizard. **Once an offer template has been used (i.e., an offer has been created using this offer template), the order of offer attributes associated with the offer template cannot be changed. **Valid Values:** Positive integer starting with one and incrementing by one for each offer attribute in the offer template.		**Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 66. UA_OfferTemplAttr parent tables

Table name	Description
UA_OfferTemplate	This table contains one row for each offer template defined in the system (these are used to create offers). For each offer template, it defines the number of offer codes, their formats, and the offer code generator; the treatment code format and generator; and general offer template meta data.
UA_AttributeDef	The UA_AttributeDef table contains the definitions of both system and custom attributes for offers and cells (campaign custom attributes are stored in the UA_CampAttribute table). System-defined attributes have the field SystemDefined=1. Offers (OfferTemplates, Offers, OfferHistory) and Cells use these attribute definitions. This table is written to when the Save button is invoked from the Custom attribute definition page. Each attribute creates one row in this table, identified by the unique ID AttributeID. After an attribute is initially created, some fields like the AttributeType and Length fields cannot be modified (see individual fields for further info).

UA_OfferToProduct

This table stores the information about the relationship between offers and products, specified by the "Relevant offers" field (required for an offer). It is only populated if the user specifies a value for the Relevant Offers field of an offer.

Table 67. UA_OfferToProduct field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
OfferID	BIGINT	NULL	The OfferID for which the product query is	19	**Is Primary Key?** No

Table 67. UA_OfferToProduct field descriptions (continued)

			being defined (criteria entered in the Related products offer attribute field. **Valid Values:** Any valid OfferID in the UA_Offer table		**Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
ProductCondition	VAR-CHAR	NOT NULL	The query based on one or more offer attributes that defines the set of Product IDs associated with this offer.	2048	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes

Table 67. UA_OfferToProduct field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: Text string representing a valid query built on offer attributes		**System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 68. UA_OfferToProduct parent tables

Table name	Description
UA_Offer	This table stores basic information about offers. All offer attributes are now stored in UA_OfferAttribute table. Each offer is associated with the Offer Template that was used to create the offer. During offer creation, the creator can change the values for the static attributes and default values for the parameterized attributes. Actual values of the parameterized attributes are assigned at the flowchart design time or at the flowchart run time.

UA_Personalization

Stores the personalization settings on the homepage. Personalization items includes recently viewed items for campaigns and sessions.

Table 69. UA_Personalization field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
UserID	BIGINT	NULL	Platform user ID that the personalization item is associated with. **Valid Values:** Valid UserID in Platform **Value may be invalid if Platform user is subsequently deleted.	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 69. UA_Personalization field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
Keyword	VAR-CHAR	NULL	Internal unique ID used to update and delete information. It is generated is using system current time in milliseconds at the moment of creation. **Valid Values:** Valid integer	64	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
Name	VAR-CHAR	NULL	Specifies the name of the personalized item/object. If the Category is "CUSTOMBOOK-	64	**Is Primary Key?** No **Is Foreign Key?** No

Table 69. UA_Personalization field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			MARK", this field contains the Custom Link name entered by the user (created from "My Custom Links" section of Dashboard usuing the 'Custom Bookmark' portlet). If the Category is "PAGEPREFERENCES", this field contains the name of the page, such as "HOMEPAGE". If the category is "RECENTLYUSED", this field contains the type of the object, such as "CAMPAIGNS", "SESSIONS". **Valid Values:** "Homepage", "Campaign", "Sessions", CustomBookMark"		**Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
Category	VARCHAR	NULL	Specifies the type of personalization category. **Valid Values:** "CustomBookmark", "Recent-	64	**Is Primary Key?** No **Is Foreign Key?** No

UA_Product

This table is provided by the customer and must minimally contain a ProductID field uniquely identifying each product. Any other fields are optional, but in practice are required to provide fields for the user to query against to define the set of qualifying products related to an offer. This field is expected to be populated and commonly used for inferred responses (e.g., for hold-out control groups).

Table 70. UA_Product field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
ProductID	BIGINT	NOT NULL	Unique identifier of the product. **Valid Values:** Valid integer	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No

Table 70. UA_Product field descriptions (continued)

					User Entered? No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes

Table 71. UA_Product child tables

Table name	Description
UA_ProductIndex	This table stores the many-to-many relationship between products and offers based on the ProductIDs that match the "product query" associated with an offer (from the Related Offers field). It is used to quickly resolve the set of products associated with a particular offer for response tracking without having to re-run the UA_OfferToProduct.Condition query. This table is periodically populated/updated by a java program, interval configured in Unica Platform (list parameters).

UA_ProductIndex

This table stores the many-to-many relationship between products and offers based on the ProductIDs that match the "product query" associated with an offer (from the Related

Offers field). It is used to quickly resolve the set of products associated with a particular offer for response tracking without having to re-run the UA_OfferToProduct.Condition query. This table is periodically populated/updated by a java program, interval configured in Unica Platform (list parameters).

Table 72. UA_ProductIndex field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
OfferID	BIGINT	NOT NULL	Offer ID for the offer that the product is associated with. **Valid Values:** Any valid OfferID from UA_Offer table	19	**Is Primary Key?** Yes **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes

Table 72. UA_ProductIndex field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
ProductID	BIGINT	NOT NULL	Product ID for the product that the offer is associated with. **Valid Values:** Any valid ProductID from the UA_Product table	19	**Is Primary Key?** Yes **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No

Table 73. UA_ProductIndex parent tables

Table name	Description
UA_Product	This table is provided for the customer. It is expected to contain, minimally a ProductID field uniquely identifying each product. Populating this table with Product IDs is not absolutely necessary if the user wishes to have no of-fer-product association. However, if populated, this field is commonly used for inferred responses (e.g., for hold-out control groups).
UA_Offer	This table stores basic information about offers. All offer attributes are now stored in UA_OfferAttribute table. Each offer is associated with the Offer Template that was used to create the offer. During offer creation, the creator can change the values for the static attributes and default val-ues for the parameterized attributes. Actual values of the parameterized attributes are assigned at the flowchart de-sign time or at the flowchart run time.

UA_ResponseHistory

User-created table that stores the required response tracking fields (AudienceID, TreatmentInstID, response date, response type, and so forth) plus any user-defined additionally tracked fields. There is a separate response history table for each audience level. Rows in this table are written by the Response process.

Table 74. UA_ResponseHistory field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
CustomerID	BIGINT	NOT NULL	This field represents the audience level (which may comprise	19	**Is Primary Key?** Yes

Table 74. UA_ResponseHistory field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			one or more fields). These fields are automatically output based on the current incoming audience level of the input cell(s). **Valid Values:** Any valid audience ID fields		**Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No
TreatmentInstID	BIGINT	NOT NULL	Identifies the treatment instance to which this customer responded **Valid Values:** Any valid TreatmentInstID from	19	**Is Primary Key?** Yes **Is Foreign Key?** Yes **Required Field?** Yes

Table 74. UA_ResponseHistory field descriptions (continued)

Table 75. UA_ResponseHistory parent tables

Table name	Description
UA_UsrResponseType	System table at implementation time that stores the list of response types with their descriptions. Once configured, the contents of this table is displayed in the configuration of a Response process.
UA_Treatment	Stores all treatments (intersection of offer versions to target cells at a point in time (run instance) and related data. If multiple offers are assigned to a cell, there are multiple rows in the treatment table (one treatment for each offer version given to the cell). If offer personalization is used, a treatment is created for each unique permutation of offer attributes (offer version) used (and HasDetailHistory=1 and contact information is stored in a separate table, UA_DtlContactHistory). This data is populated during a production run of a CSP only when logging is enabled.
UA_Time	This table holds time information identifying information about the hours and minutes for a particular time. It is used to faciliate reporting. This table must be populated as part of the implementation setup.

Table 75. UA_ResponseHistory parent tables (continued)

Table name	Description
UA_Calendar	This table holds calendar information identifying information about calendar quarters, days of the week, first and last days of the week, etc. It is used to facilitate reporting over time. It is expected that this table will be customized by customers during implementation. It is the responsibility of the implementation to ensure that dates referenced in Contact history are contained in the time span covered by this table.

UA_RespTypeMapping

The UA_RespTypeMapping table coordinates transfer of data across Unica Campaign and Unica Deliver tables to support offer integration. This table maps the Unica CampaignRespTypeID in UA_UsrResponseType to the DeliverRespTypeID in UACE_ResponseType. Note: Pre-defined response type mappings for Unica Campaign-Unica Deliver ETL are defined as follows (CampaignRespTypeID,DeliverRespTypeID,ApplicationType): 9,1,3 for Link Click; 10,14,3 for Landing Page; and 11,18,3 for SMS Reply Message.

Table 76. UA_RespTypeMapping field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
CampaignRespType-ID	BIGINT	NOT NULL	A numeric field which must match a value defined in column ResponseTypeID in table UA_UsrResponseType.	19	**Is Primary Key?** No
DeliverRespTypeID	BIGINT	NOT NULL	A numeric field which must match a value	19	**Is Primary Key?** No

Table 76. UA_RespTypeMapping field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			defined in column Re- sponseTypeID in table UACE_ResponseType.		
ApplicationType	INTEGER	NULL	The ApplicationType of 3 indicates Unica De- liver and must not be changed.	10	**Is Primary Key?** No

UA_SegMembership

This table contains the members of each strategic segment (can be a many-to-many relationship). There is one SegMembership table per audience level. It is only populated if the system table is mapped. It is required to be mapped for Unica Optimize (ACO) to function. It is updated to contain the latest members each time the CreateSeg process that creates it is run in production.

Table 77. UA_SegMembership field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
SegmentID	BIGINT	NOT NULL	The segment ID. **Valid Values:** Any valid SegmentID in UA_Seg- ment table	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Gener- ated?** Yes

Table 77. UA_SegMembership field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No
CustomerID	BIGINT	NOT NULL	This is a placeholder for one or more audience fields representing the marketing entity. This CustomerID is a member of the specified strategic segment. **Valid Values:** Any valid set of audience ID values	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No

Table 77. UA_SegMembership field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					User Entered? No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No

UA_Segment

This table stores information on the strategic segments created by the Create Seg process. It is populated when a CreateSeg process is created and saved in a flowchart and subsequently updated when the CreateSeg process is run. A temporary copy of the row is created (with TempFlag=1) when the flowchart containing the CreateSeg process box is being edited or run.

Table 78. UA_Segment field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
SegmentID	BIGINT	NOT NULL	Unique identifier of segment. This ID is assigned by the system when a segment is created.	19	**Is Primary Key?** Yes **Is Foreign Key?** No

Table 78. UA_Segment field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: Globally unique positive integer within the internalIDLowerLimit and internalIDUpperLimit configuration parameter values for generated values (may be outside this range for campaigns imported from another system using sesutil).		**Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
Name	VAR-CHAR	NULL	Name of the strategic segment; must be unique with the folder in which the segment is created. **Valid Values:** Any text characters, minus standard disallowed	64	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No

Table 79. UA_Segment parent tables

Table name	Description
UA_SegmentType	An enum table that is pre-populated at the time of system table creation. This table helps identify the set of valid values of Segment Type.
UA_Folder	This table contains the basic data for all internal folders for object storage in the system. A new row is created each time a new folder is created for storing any of system object (e.g., campaign, session, offer, segment, custom macro, derived field, etc.).

Table 80. UA_Segment child tables

Table name	Description
UA_FlowchartSeg	This table contains all of the relationships between segments and flowcharts. It will define when a segment is created by a flowchart and/or when a segment is simply reference by the flowchart. By having this table we can ensure that FK relationships are enforced at the DB level.

UA_SegmentType

An enum table that is pre-populated at the time of system table creation. This table helps identify the set of valid values of Segment Type.

Table 81. UA_SegmentType field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
SegmentType	INTEGER	NOT NULL	This is the ID for the Segment Type. There are currently two segment types, interactive and batch **Valid Values:** 1 = Batch, 2 = Interactive	10	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No

Table 81. UA_SegmentType field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Create? Yes
					Stored Save? No
					Stored Execute? No
					Configuration? No
Description	VAR-CHAR	NULL	The description of the Segment Type. **Valid Values:** Any string	64	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? No
					System Generated? Yes
					System Generated Override? No
					User Entered? No
					Stored Create? Yes
					Stored Save? No

Table 81. UA_SegmentType field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Execute? No **Configuration?** No

Table 82. UA_SegmentType child tables

Table name	Description
UA_Segment	This table stores information on the strategic/smart segments created by the CreateSeg/PopulateSeg process. It is populated when a CreateSeg process is created and saved in a flowchart and subsequently updated when the CreateSeg process is run.

UA_SegRefType

A lookup table that is prepoluated with the valid references types.

Table 83. UA_SegRefType field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
RefType	INTEGER	NOT NULL	RefType ties the UA_FlowchartSeg table to the UA_SegRefType table. Batch flowcharts always have the value 1. Unless you have Interact incorporated in your environment, the	10	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes

Table 83. UA_SegRefType field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			value will never be 2 for batch flowcharts. A value of 2 is used only for Interactive flowcharts. **Valid Values:** 1= creator, 2 = referencer		**System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
Description	VAR-CHAR	NULL	A description of the reference type. **Valid Values:** Any string	64	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** Yes

Table 83. UA_SegRefType field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No

Table 84. UA_SegRefType child tables

Table name	Description
UA_FlowchartSeg	This table contains all of the relationships between segments and flowcharts. It will define when a segment is created by a flowchart and/or when a segment is simply reference by the flowchart. By having this table we can ensure that FK relationships are enforced at the DB level.

UA_SesnRunType

This enumerates the Campaign session run types (excluding test mode)

Table 85. UA_SesnRunType field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
RunType	INTEGER	NOT NULL	Unique ID for a Campaign session run type **Valid Values:** Globally unique positive integer within the internalIDLowerLimit and internalIDUpperLimit configuration parameter values for generated values (may be outside this range for campaigns imported from another system using sesutil).	10	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
Description	VARCHAR	NULL	Session run type description (not visible in UI)	64	**Is Primary Key?** No **Is Foreign Key?** No

Table 85. UA_SesnRunType field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: Valid string		**Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 86. UA_SesnRunType child tables

Table name	Description
UA_CCRunLog	This table logs each time a flowchart is run in production (not populated by test runs), providing a flowchart run history. A unique RunID is generated on each new flowchart run (but not for run branch/process). It records the start/end datetime and who ran the flowchart.

UA_Session

Stores information on sessions created in Campaign.

Table 87. UA_Session field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
SessionID	BIGINT	NOT NULL	Unique identifier of the session. This ID is assigned by the system when a session is created. **Valid Values:** Globally unique positive integer within the internalIDLowerLimit and internalIDUpperLimit configuration parameter values for generated values (may be outside this range for campaigns imported from another system using sesutil).	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No

Table 87. UA_Session field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
Name	VAR-CHAR	NULL	Name of the session; must be unique with the folder in which the session is created. **Valid Values:** Any text characters, minus standard disallowed special name characters	64	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
Description	VAR-CHAR	NULL	Optional, user-entered, free-form text description of the session.	1024	**Is Primary Key?** No **Is Foreign Key?** No

Table 87. UA_Session field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: Any text characters minus standard disallowed special characters in text		**Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
FolderID	BIGINT	NULL	Folder ID for the folder where the object is stored. Value is automatically populated based on the folder where the object is stored. User can change this value by	19	**Is Primary Key?** No **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes

Table 87. UA_Session field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			"moving" the object to a different folder. **Valid Values:** Any valid FolderID value existing in UA_Folder table		**System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
CreateDate	TIMESTAMP	NULL	Server date and time the object was created. **Valid Values:** Valid datetime	23,3	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No

Table 87. UA_Session field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					User Entered? No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** Yes
CreateBy	INTEGER	NULL	Platform UserId of the user who created the Session. **Valid Values:** Valid Platform UserID	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes

Table 87. UA_Session field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? No **Stored Execute?** No **Configuration?** No
UpdateDate	TIMES- TAMP	NULL	Last server date and time the object was updated (edited and saved); same as CreateDate for initial object creation. **Valid Values:** Valid datetime	23,3	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No

Table 87. UA_Session field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? Yes
UpdateBy	INTEGER	NULL	Platform user ID for the user who last up-dated the object; same as CreateBy for initial object creation. **Valid Values:** Valid Platform UserID	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Gener-ated?** Yes **System Gener-ated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Exe-cute?** No **Configuration?** No
LastRunDate	TIMES-TAMP	NULL	Server date and time the session flowchart	23,3	**Is Primary Key?** No

Table 87. UA_Session field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			was last run. This value is NULL if never run. **Valid Values:** Valid datetime		**Is Foreign Key?** No **Required Field?** No **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** Yes
RunBy	INTEGER	NULL	Platform user ID for the user that last run the flowchart. This value is NULL if never run. **Valid Values:** Valid Platform UserID	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No

Table 87. UA_Session field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated? Yes
					System Generated Override? No
					User Entered? No
					Stored Create? No
					Stored Save? No
					Stored Execute? Yes
					Configuration? Yes
PolicyID	INTEGER	NULL	Security policy ID for the object, which determines which Platform users are allowed to access this object. The security policy for the object is automatically set to the security policy of the folder in which the object resides if the object is created in a folder	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes

Table 87. UA_Session field descriptions (continued)

					Configuration? No

Table 88. UA_Session parent tables

Table name	Description
UA_Folder	This table contains the basic data for all internal folders for object storage in the system. A new row is created each time a new folder is created for storing any of system object (e.g., campaign, session, offer, segment, custom macro, derived field, etc.).

Table 89. UA_Session child tables

Table name	Description
UA_Flowchart	This table stores information for all flowcharts. It has one row for each flowchart in the system and is also used for reporting on the running flowcharts (status) in the system.

UA_SummaryCube

Stores information on all cubes created with the Cube process and provides status information and a pointer to the CubeDataFile name stored on the Unica Campaign server.

Table 90. UA_SummaryCube field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
CubeID	BIGINT	NOT NULL	Unique identifier of cube. This ID is assigned by the system when a cube is created. **Valid Values:** Globally unique positive integer within the internalIDLowerLimit and internalIDUpperLimit configuration parameter values for generated values (may be outside this range for campaigns imported from another system using sesutil).	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes

Table 90. UA_SummaryCube field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? No **Stored Execute?** No **Configuration?** No
TempFlag	INTEGER	NOT NULL	This is an internal field used to identify when a cube is locked. This occurs when someone is editing or running the flowchart that generates the cube. **Valid Values:** 0 = not in use; 1 = in use	10	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** Yes

Table 90. UA_SummaryCube field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? No
SrcFlowChartID	BIGINT	NOT NULL	Flowchart ID of the flowchart that contains the cube process used to create this cube. **Valid Values:** Any valid FlowchartID from the UA_Flowchart table	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 90. UA_SummaryCube field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
Name	VAR-CHAR	NULL	Name of the cube; name must be globally unique. **Valid Values:** Any text characters, minus standard disallowed special name characters	64	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
Description	VAR-CHAR	NULL	Optional, user-entered, free-form text description of the cube.	1024	**Is Primary Key?** No **Is Foreign Key?** No

Table 90. UA_SummaryCube field descriptions (continued)

Table 92. UA_TableCatalog parent tables

Table name	Description
UA_Folder	This table contains the basic data for all internal folders for object storage in the system. A new row is created each time a new folder is created for storing any of system object (e.g., campaign, session, offer, segment, custom macro, derived field, etc.).

UA_TargetCells

This table stores information on target cells created in all flowcharts. Target cells are defined as cells that are attached to an output process (Mail List, Call List, Recommend, Unica Deliver, Snapshot, or Optimize). It stores meta data information (name, code), source info (campaign, flowchart and cell IDs), treatment data (list of assigned offers/offer lists and whether it is a control cell), and whether the cell was created top-down in the Target Cell Spreadsheet (TCS) or bottom-up from within a flowchart.

Table 93. UA_TargetCells field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
CellID	BIGINT	NOT NULL	Unique identifier of cell. This ID is assigned by the system when a target is created and the flowchart or TCS is saved. **Valid Values:** Globally unique positive integer within the internalIDLowerLimit and internalIDUpperLimit configuration parameter values for generated values (may be outside this range for campaigns imported from another system using sesutil).	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes

Table 93. UA_TargetCells field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Execute? No **Configuration?** No
CellName	VAR-CHAR	NOT NULL	Name of the cell; must be unique in the flow-chart. **Valid Values:** Any text characters, minus standard disallowed special Campaign query language name characters.	512	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** Yes **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 93. UA_TargetCells field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
Description	VAR-CHAR	NULL	Optional, user-entered, free-form text description of the cell (only can be populated from the TCS). **Valid Values:** Any text characters minus standard disallowed special characters in text	1024	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
CellCode	VAR-CHAR	NULL	String value identifying the cell; must meet the system configuration cell code for-	64	**Is Primary Key?** No **Is Foreign Key?** No

					User Entered? No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** Yes
UpdateBy	INTEGER	NULL	Platform user ID for the user who last updated the object; same as CreateBy for initial object creation. **Valid Values:** Valid Platform UserID	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes

Table 93. UA_TargetCells field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? Yes **Stored Execute?** No **Configuration?** No
IsTopDown	INTEGER	NULL	Any target cell created in the TCS is a top-down created cell (as opposed to cells that created within a flowchart). A target cell may be both top-down defined and linked to a cell in the flowchart. **Valid Values:** 0=bottom-up; 1=top-down	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No

Table 93. UA_TargetCells field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? No
IsReadOnly	INTEGER	NULL	Specifies that a target cell is read only and the user cannot spec- ify a control cell or as- sign offers from the TCS. This occurs when a target cell is connect- ed to multiple output processes in a flow- chart or if offer/control cell control should be disabled (e.g., for tar- get cells connected to Snapshot or Optimize process boxes). **Valid Values:** 0=read/ write; 1=read-only	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Gener- ated?** Yes **System Gener- ated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Exe- cute?** No **Configuration?** No
Retired	INTEGER	NULL	Specifies whether this target cell is associat-	10	**Is Primary Key?** No

Table 93. UA_TargetCells field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			ed with a specific CSP process in a flowchart. This value will be "retired" if the CSP that created it no longer exists or no longer is treating this cell. **Valid Values:** 1 = Retired; 0 = Active		**Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
Approved	INTEGER	NULL	Specifies whether this row of the Target Cell Spreadsheet (TCS) has been approved. Approvals can only occur in the HCL Plan TCS.	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes

Table 93. UA_TargetCells field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: 0 = Not approved 1/NULL = Approved (always 1 when Plan is not integrated)		**System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
CellCount	INTEGER	NULL	Contains the number of unique audience IDs in the cell (updated when user manually clicks "Get Cell Status? in the TCS) **Valid Values:** Any non-negative integer	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** Yes

Table 93. UA_TargetCells field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** No **Stored Create?** No **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
LastRunType	INTEGER	NULL	Specifies the type of the last run generating the cell count **Valid Values:** Production Flowchart Production Branch Production Process Test Flowchart Test Branch Test Process	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** Yes **System Generated Override?** No

Table 93. UA_TargetCells field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					User Entered? No **Stored Create?** No **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
LastRunBy	INTEGER	NULL	Name of the last user who updated the cell count. **Valid Values:** Any user name stored in Unica Platform.	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No

Table 93. UA_TargetCells field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? Yes **Stored Execute?** No **Configuration?** No
LastRunTime	TIMES-TAMP	NULL	Last server date and time the cell count was updated **Valid Values:** Valid datetime	23,3	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** Yes **Stored Execute?** No

Table 93. UA_TargetCells field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? No

Table 94. UA_TargetCells parent tables

Table name	Description
UA_OfferList	This table stores both internal and user-created offer lists. User-created offer lists can be static (fixed list of offers) or smart (dynamic; based on a query). Internally generated offer lists are used to group together the actual list of offers assigned to a specific cell in a CSP when multiple offers are assigned. Internal offer lists may reference user-created offer lists (only one level of nesting supported).
UA_Campaign	This table contains campaign metadata provided by the user and basic run information. One row is written this table each time a new campaign is created and saved. Related tables (UA_CampToSegment, UA_CampToOffer, and UA_Flowchart) are not updated until those relationships/links or objects are created. That is, a UA_Flowchart record is created only when a new flowchart is added to the campaign. The UA_CampaignExtAttr is populated at the same time with any campaign custom attribute values.

Table 95. UA_TargetCells child tables

Table name	Description
UA_CellAttribute	This table stores the custom cell attribute values for a particular cell. These values are data-entered by the user in the Target Cell Spreadsheet (TCS). Only one of the fields

Table 95. UA_TargetCells child tables (continued)

Table name	Description
	(StringValue, NumberValue, DatetimeValue) is populated for any given row, depending on the data type of the custom attribute (as specified in UA_AttributeDef). Attributes are displayed in the target cell spreadsheet in AttributeID order.
UA_Treatment	Stores all treatments (intersection of offer versions to target cells at a point in time (run instance) and related data. If multiple offers are assigned to a cell, there are multiple rows in the treatment table (one treatment for each offer version given to the cell). If offer personalization is used, a treatment is created for each unique permutation of offer attributes (offer version) used (and HasDetailHistory=1 and contact information is stored in a separate table, UA_DtlContactHistory). This data is populated during a production run of a CSP only when logging is enabled.

UA_Time

This table holds time information identifying information about the hours and minutes for a particular time. It is used to faciliate reporting. This table must be populated as part of the implementation setup.

Table 96. UA_Time field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
TimeID	BIGINT	NOT NULL	Unique identifier for a row of this table. **Valid Values:** Time represented as HHMMSS	19	**Is Primary Key?** Yes **Is Foreign Key?** No

Table 97. UA_Time child tables

Table name	Description
UA_ContactHistory	User-created table that stores the required contact fields (AudienceID, CellID, PackageID, ContactDateTime, ContactStatusID, and so forth) plus any user-defined additionally tracked fields. There is a separate table for each audience level. Rows in this table are written if the CSP logging table has "Log to contact history tables" enabled. This table captures cell membership information and identifies cells treated in the same CSP by packageID (all contacts made to the same audience entity in the same CSP is part of the same "package", which represents an interruption). Both target cells and hold-out controls are written to contact history (CH). Existing entries in this table can be updated (ContactStatus, UpdateDateTime, and user-defined fields) using the Track process. The Track process cannot create new

Table 97. UA_Time child tables (continued)

Table name	Description
	rows in this table. This table is required for tracking contacts. This is also used by Unica Optimize (ACO) for applying optimization to contacts. This "base" contact history table is populated simultaneously with the UA_Treatment, UA_OfferHistory, and UA_OfferHistAttrib tables (together all of these tables make up "contact history"). None of these tables are written if log to contact history is not enabled in a CSP.
UA_DtlContactHist	This table stores exactly which audience IDs received which offer versions in the offer personalization (sub-cell) case where not all individuals in the same cell receive exactly the same offers. They may receive a different # of offers and/or different offer versions. This table has rows written to it only when UA_Treatment.HasDetailHistory = 1.
UA_ResponseHistory	User-created table that stores the required response tracking fields (AudienceID, TreatmentInstID, response date, response type, and so forth) plus any user-defined additionally tracked fields. There is a separate response history table for each audience level. Rows in this table are written by the Response process.

UA_TmpTablePool

This table is used by the Temp Table Pool Manager module of the Unica Campaign Server for storing table IDs and their schemas. Configuration: The UseTempTablePool setting in campaign | partitions | partition1 | datasources | data_source controls the usage of this table.

Table 98. UA_TmpTablePool field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
ID	BIGINT	NOT NULL	This column stores the ID of the temp tables that are in the temp table pool. **Valid Values:** 0-max allowed	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** N/A **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** Yes **Configuration?** Yes
DataSrcName	VARCHAR	NOT NULL		255	**Is Primary Key?** No **Is Foreign Key?** No

					Configuration? Yes

UA_Treatment

Stores all treatments (intersection of offer versions to target cells at a point in time (run instance) and related data. If multiple offers are assigned to a cell, there are multiple rows in the treatment table (one treatment for each offer version given to the cell). If offer personalization is used, a treatment is created for each unique permutation of offer attributes (offer version) used (and HasDetailHistory=1 and contact information is stored in a separate table, UA_DtlContactHistory). This data is populated during a production run of a CSP only when logging is enabled.

Table 99. UA_Treatment field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
TreatmentInstID	BIGINT	NOT NULL	Unique identifier for the treatment instance. This ID is assigned by the system when a treatment is created during a flowchart run. **Valid Values:** Globally unique positive integer within the internalIDLowerLimit and internalIDUpperLimit configuration para-	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No

			based on the treatment code format in UA_OfferTemplate. TreatmentCodeFmt used to generate the OfferID (not overridable by the user). **Valid Values:** Unique treatment code meeting the required format in UA_OfferTemplate. TreatmentCodeFmt		**Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No
CntrlTreatmtFlag	INTEGER	NULL	Identifies whether the treatment instance is for a hold-out control cell or not. Control treatments are written to CH, but not to contact/output lists. Used	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes

Table 99. UA_Treatment field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			for response tracking for inferred responses. **Valid Values:** 0=treatment created for target cell; 1=treatment created for control cell		**System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No
CntrlTreatmtInstID	BIGINT	NULL	If CtntrlTreatmtFlag=1, this field is NULL. If CtntrlTreatmtFlag=0 and the user assigned a control cell to the target cell, this field contains the treatment instance ID of the control treatment. **Valid Values:** Any valid TreatmentInst-	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** Yes

Table 99. UA_Treatment field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			ID from the UA_Treatment table where CntrlTreatmtFlag=1		**System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No
TreatmentSize	INTEGER	NULL	Number of unique members (audience IDs) being treated by this treatment. This is the number of members in CellID in the non-personalization case (where everyone in the cell gets exactly the same treatments), but it is a number <= cell size when offer personalization is used	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No

Table 99. UA_Treatment field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			(when HasDetailHistory=1). **Valid Values:** Non-negative integer		**User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No
OfferID	BIGINT	NULL	The offer ID of the offer associated with this treatment. **Valid Values:** Any valid OfferID from UA_Offer	19	**Is Primary Key?** No **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** No

Table 99. UA_Treatment field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? No **Stored Execute?** Yes **Configuration?** No
ProcessID	BIGINT	NOT NULL	Unique ID of the CSP that created this treatment (this value is unique within the flowchart, but not globally unique; need flowchartID for global uniqueness). This value is used to support "Clear History" functionality in the CSP (clear history for a specified run for all treatments created by that process box). **Valid Values:** Valid integer (process ID does not need to exist in the flowchart as the process box may have been deleted).	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes

Table 99. UA_Treatment field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? No
HasDetailHistory	INTEGER	NULL	Identifies if offer personalization is being used where not all members of the cell receive exactly the same offers. This occurs when a derived field or data field based on individual attributes is used for offer parameterization, or results are being processed from optimized ACO results, or when the CSP is in an interactive flowchart. **Valid Values:** 0=no detailed history; 1=has records in UA_DtlContactHist table	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No
ExpirationDateTime	TIMESTAMP	NULL	Actual last date (through midnight)	23,3	**Is Primary Key?** No

Table 99. UA_Treatment field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			that the offer version is valid. This value may be based on the process box run time + duration (UA_Offer.ExpirationDate Flag =1) or may be an absolute value specified by the offer (UA_Offer.ExpirationDate Flag =0) or user (if parameterized). **Valid Values:** Valid datetime on or after EffectiveDateTime		**Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** Yes
EffectiveDateTime	TIMESTAMP	NULL	Actual first date (starting at midnight) that the offer version is valid. This value may be based on the process box run time (UA_Offer.Effective-	23,3	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes

Table 99. UA_Treatment field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			DateFlag =1) or may be an absolute value specified by the offer (UA_Offer.Effective-DateFlag =0) or user (if parameterized). **Valid Values:** Valid datetime		**System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** Yes
OfferHistoryID	BIGINT	NULL	Link to the specific offer version associated with this treatment if the offer has any parameterized offer attributes. **Valid Values:** Valid OfferHistoryID from UA_-OfferHistory table	19	**Is Primary Key?** No **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes

Table 99. UA_Treatment field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No
CampaignID	BIGINT	NULL	Identifies the campaign ID to which this treatment is associated **Valid Values:** Any valid CampaignID in the UA_Campaign table	19	**Is Primary Key?** No **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No

Table 99. UA_Treatment field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					User Entered? No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes **Configuration?** No
CntrlCellID	BIGINT	NULL	If the target cell has an associated control cell, this field holds the ID of the control cell. **Valid Values:** Any valid CellID in the UA_TargetCell table	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes

Table 99. UA_Treatment field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? Yes **Stored Execute?** No **Configuration?** No
FlowchartID	BIGINT	NULL	Unique identifier of the flowchart that created the treatment. **Valid Values:** Any valid FlowchartID in UA_-Flowchart table	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** Yes

Table 99. UA_Treatment field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? No

Table 100. UA_Treatment parent tables

Table name	Description
UA_TargetCells	This table stores information on target cells created in all flowcharts. Target cells are defined as cells that are attached to an output process (Mail List, Call List, Recommend, Unica Deliver, Snapshot, or Optimize). It stores meta data information (name, code), source info (campaign, flowchart and cell IDs), treatment data (list of assigned offers/offer lists and whether it is a control cell), and whether the cell was created top-down in the Target Cell Spreadsheet (TCS) or bottom-up from within a flowchart.
UA_OfferHistory	This table stores all offer versions that have been given out to customers. It determines if a particular combination of parameterized offer attributes (offer version identified by OfferHistoryID) for a given offer (offerID) has already been created (using the CRC value). The UA_OfferHistory table is populated only once for each unique offer version. If the UA_OfferHistory table is already populated for an offer, it will not be populated again if contact history is updated for the same offer.
UA_Offer	This table stores basic information about offers. All offer attributes are now stored in UA_OfferAttribute table. Each offer is associated with the Offer Template that was used to create the offer. During offer creation, the creator can

Table 100. UA_Treatment parent tables (continued)

Table name	Description
	change the values for the static attributes and default values for the parameterized attributes. Actual values of the parameterized attributes are assigned at the flowchart design time or at the flowchart run time.
UA_CCRunLog	This table logs each time a flowchart is run in production (not populated by test runs), providing a flowchart run history. A unique RunID is generated on each new flowchart run (but not for run branch/process). It records the start/end datetime and who ran the flowchart.
UA_Campaign	This table contains campaign metadata provided by the user and basic run information. One row is written this table each time a new campaign is created and saved. Related tables (UA_CampToSegment, UA_CampToOffer, and UA_Flowchart) are not updated until those relationships/links or objects are created. That is, a UA_Flowchart record is created only when a new flowchart is added to the campaign. The UA_CampaignExtAttr is populated at the same time with any campaign custom attribute values.

Table 101. UA_Treatment child tables

Table name	Description
UA_ResponseHistory	User-created table that stores the required response tracking fields (AudienceID, TreatmentInstID, response date, response type, and so forth) plus any user-defined additionally tracked fields. There is a separate response history table for each audience level. Rows in this table are written by the Response process.

UA_Triggerlist

This table stores a name, definition, and note for each outbound trigger sent through the Schedule and Contact processes. A trigger executes a command line, which can be a batch file or a script.

Table 102. UA_Triggerlist field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
FolderID	BIGINT	NOT NULL	Folder ID for the folder where the object is stored. Value is automatically populated based on the folder where the object is stored. User can change this value by "moving" the object to a different folder. **Valid Values:** Any valid FolderID value existing in UA_Folder table	19	**Is Primary Key?** Yes **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

Table 102. UA_Triggerlist field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
Name	VAR-CHAR	NOT NULL	Name of the trigger; must be unique within the folder. **Valid Values:** Any text characters, minus standard disallowed special name characters	255	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
Description	VAR-CHAR	NULL	Optional, user-entered free-form text description of the trigger	1024	**Is Primary Key?** No **Is Foreign Key?** No

Table 102. UA_Triggerlist field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			Valid Values: Any text characters minus standard disallowed special characters in text		**Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
Definition	VAR-CHAR	NULL	The path relative to the current partition root (e.g., "MyTrigger.bat") OR Full file path to the location of the trigger file (e.g.,	2048	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No

					Configuration? No

Table 103. UA_Triggerlist parent tables

Table name	Description
UA_Folder	This table contains the basic data for all internal folders for object storage in the system. A new row is created each time a new folder is created for storing any of system object (e.g., campaign, session, offer, segment, custom macro, derived field, etc.).

UA_UsrResponseType

User-defined table at implementation time that stores the list of response types with their descriptions. Once configured, the contents of this table is displayed in the configuration of a Response process.

Table 104. UA_UsrResponseType field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
ResponseTypeID	BIGINT	NOT NULL	Unique identifier for each response type (just unique within this table). **Valid Values:** Unique integer within this table	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes

Table 104. UA_UsrResponseType field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated? No **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes
Name	VARCHAR	NULL	Name of the response type (not displayed anywhere in Unica Campaign GUI) **Valid Values:** Valid string. The following values are pre-defined (additional values can be added): Explore, Consider, Commit, Fulfill, Use, Unsubscribe,	64	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? No **Stored Execute?** No **Configuration?** Yes

UA_EngageEtlRecordStatus

This table supports the Unica Campaign+Engage integration and tracks Engage ETL Record status.

Table 125. UA_EngageEtlRecordStatus field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
RecordID	BIGINT	NOT NULL	Primary key for this table	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No

Table 125. UA_EngageEtlRecordStatus field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					User Entered? No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
EventType	INTEGER	NOT NULL	Primary key for this table	10	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** Yes

Table 125. UA_EngageEtlRecordStatus field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? Yes **Stored Execute?** No **Configuration?** No
Status	INTEGER	NOT NULL	Optional Status information of the event. **Valid Values:** Valid string	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No

Table 125. UA_EngageEtlRecordStatus field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? Yes
Description	VAR-CHAR	NOT NULL	Description information of the event.	256	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes

Table 125. UA_EngageEtlRecordStatus field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
FailureCount	INTEGER	NULL	Number of retries ETL process will do after failure. **Valid Values:**1-5	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes
TrackingCode	VAR-CHAR	NULL	TrackingCode of record.	256	**Is Primary Key?** No **Is Foreign Key?** No

Table 125. UA_EngageEtlRecordStatus field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Required Field? No
					System Generated? No
					System Generated Override? No
					User Entered? No
					Stored Create? No
					Stored Save? No
					Stored Execute? No
					Configuration? Yes
CampaignAudienceId	VARCHAR	NULL	CampaignAudienceId of record.	256	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? No
					System Generated? No

Field Name	Type	Null?	Description	Length	Additional Attributes
					User Entered? No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes

UA_TempTreatment

This table supports the Unica Campaign+Engage ETL process and save count of contacts per treatment id during internal processing.

Table 126. UA_TempTreatment field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
TreatmentId	BIGINT	NOT NULL	Primary key for this table	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes

Table 126. UA_TempTreatment field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated? Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
Count	BIGINT	NOT NULL	Keeps count of treatment ID per contact	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No

Table 126. UA_TempTreatment field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

UA_CampaignEngageResponseMap

This table supports the Unica Campaign+Engage integration and tracks Unica Campaign Engage Response mapping.

Table 127. UA_CampaignEngageResponseMap field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
CampaignEventType	BIGINT	NOT NULL	CampaignEventType for this table	19	**Is Primary Key?** No **Is Foreign Key?** No

Table 127. UA_CampaignEngageResponseMap field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Required Field? Yes
					System Generated? No
					System Generated Override? No
					User Entered? No
					Stored Create? Yes
					Stored Save? Yes
					Stored Execute? No
					Configuration? No
EngageEventType	BIGINT	NOT NULL	EngageEventType for this table	19	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? Yes
					System Generated? No

Table 127. UA_CampaignEngageResponseMap field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
ApplicationType	INTEGER	NOT NULL	Optional Application-Type information of the event. **Valid Values:** Valid string	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No

Table 127. UA_CampaignEngageResponseMap field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					User Entered? No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes

UA_EngageEtlTracker

This table supports the Unica Campaign+Engage integration and tracks Engage ETL records.

Table 128. UA_EngageEtlTracker field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
EventType	INTEGER	NOT NULL	EventType for this table	10	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** Yes

Table 128. UA_EngageEtlTracker field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated? No
					System Generated Override? No
					User Entered? No
					Stored Create? Yes
					Stored Save? Yes
					Stored Execute? No
					Configuration? No
LastProcessed-RecordId	BIGINT	NOT NULL	LastProcessedRecord-Id for this table	19	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? Yes
					System Generated? No

Table 128. UA_EngageEtlTracker field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

UA_History

This table logs the changes made to each flowchart in Campaign and Session, there are many types events which are audited.

Table 129. UA_History field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
RecordID	BIGINT	NOT NULL	Primary key for this table	19	**Is Primary Key?** Yes **Is Foreign Key?** No

Table 129. UA_History field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Required Field? Yes
					System Generated? No
					System Generated Override? No
					User Entered? No
					Stored Create? Yes
					Stored Save? Yes
					Stored Execute? No
					Configuration? No
ObjectType	VAR-CHAR	NOT NULL	ObjectType for this table	32	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? Yes
					System Generated? No

Table 129. UA_History field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No
					User Entered? No
					Stored Create? Yes
					Stored Save? Yes
					Stored Execute? No
					Configuration? No
CampaignID	BIGINT	NOT NULL	Campaign ID for the record.	19	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? No
					System Generated? No
					System Generated Override? No

Table 129. UA_History field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					User Entered? No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes
SessionID	BIGINT	NOT NULL	SessionID for the record.	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No

Table 129. UA_History field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? No
					Stored Execute? No
					Configuration? Yes
sourceType	BIGINT	NOT NULL	sourceType for the table.	19	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? No
					System Generated? No
					System Generated Override? No
					User Entered? No
					Stored Create? No
					Stored Save? No
					Stored Execute? No

Table 129. UA_History field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? Yes
sourceTypeId	BIGINT	NOT NULL	sourceTypeID for the table.	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes
sourceTypeName	VARCHAR	NOT NULL	sourceTypeName for the table.	255	**Is Primary Key?** No

Table 129. UA_History field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Is Foreign Key? No
					Required Field? No
					System Generated? No
					System Generated Override? No
					User Entered? No
					Stored Create? No
					Stored Save? No
					Stored Execute? No
					Configuration? Yes
DatetimeValue	TIMESTAMP	NOT NULL	timestamp for the record.		**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? No

Table 129. UA_History field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated? No
					System Generated Override? No
					User Entered? No
					Stored Create? No
					Stored Save? No
					Stored Execute? No
					Configuration? Yes
eventType	BIGINT	NOT NULL	eventType for the record. Valid Values: 0-20	19	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? No
					System Generated? No

Table 129. UA_History field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes
UpdateBy	VARCHAR	NOT NULL	UpdateBy user information for the record.	256	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No

Table 129. UA_History field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					User Entered? No **Stored Create?** No **Stored Save?** No **Stored Execute?** No **Configuration?** Yes
SaveComment	VAR-CHAR	NULL	Comment for the record.	1024	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** No **Stored Create?** No

Table 129. UA_History field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? No **Stored Execute?** No **Configuration?** Yes

UA_Attribute_Default_Value

UA_AttributeDefaultValue table stores default value while creating or updating attribute definition. It is applicable only for SSDB and RichText attribute types.

Table 130. UA_AttributeDefaultValue field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
AttributeID	BIGINT	NOT NULL	The populated field is based on the UA_AttributeDef.AttributeType field for this AttributeID.**Valid Values** : Any valid AttributeID in UA_AttributeDef.		**Is Primary Key?** No **Is Foreign Key?** Yes **Required Field?** Yes **System Generated?** No **System Generated Override?** No

Table 130. UA_AttributeDefaultValue field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					User Entered? No **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No
StringValue	VAR-CHAR	NULL	Only one of these 4 fields, String Value, NumberValue, Date-timeValue, or Clob Value is populated for any row. The populated field is based on the AttributeID.	1024	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes

Table 130. UA_AttributeDefaultValue field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Stored Save? Yes
					Stored Execute? No
					Configuration? No
NumberValue	FLOAT	NULL	**Valid Values**: Valid numeric value	19	**Is Primary Key?** No
					Is Foreign Key? No
					Required Field? No
					System Generated? No
					System Generated Override? No
					User Entered? Yes
					Stored Create? yes
					Stored Save? Yes
					Stored Execute? No

Table 130. UA_AttributeDefaultValue field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Configuration? Yes
DatetimeValue	DATETIME	NULL	**Valid Values**: Valid datetime	19	**Is Primary Key?** No **Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** Yes
ClobValue	NVARCHAR	NOT NULL	Only one of these 4 fields, String Value,	MAX	**Is Primary Key?** No

Table 130. UA_AttributeDefaultValue field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			NumberValue, Date-timeValue, or Clob Value is populated for any row. The populated field is based on the UA_AttributeDef.AttributeType field for this AttributeID. **Valid Values:** Valid Values: free-form text to store long character sequences.		**Is Foreign Key?** No **Required Field?** No **System Generated?** No **System Generated Override?** No **User Entered?** Yes **Stored Create?** Yes **Stored Save?** Yes **Stored Execute?** No **Configuration?** No

UA_AttributeDependent

UA_AttributeDependent table stores dependencies between SSDB attributes selected in offer template. This dependency exists ONLY at template level.

Table 131. UA_AttributeDependent field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
OfferTemplId	BIGINT	NOT NULL	The offer template ID to which the attributes are associated. Valid Values: Any valid Offer-TemplID in the UA_OfferTemplate table.		**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
AttributeId	BIGINT	NOT NULL	The parent Attribute ID selected to define dependency at template level. **Valid Values**: Any	1024	**Is Primary Key?** Yes **Is Foreign Key?** No

Table 131. UA_AttributeDependent field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
			valid AttributeID in the UA_AttributeDef table.		**Required Field?** Yes **System Generated?** Yes **System Generated Override?** No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
DependentAttrId	BIGINT	NOT NULL	The dependent Attribute ID selected to define dependency at template level. **Valid Values**: Any valid AttributeID in the UA_AttributeDef table.	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes

Table 131. UA_AttributeDependent field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No

UA_JourneyESInfo

UA_JourneyESInfo table stores the Information of CampaignID, FlowcharID and EntrySourceID of campaign flowchart.

Table 132. UA_JourneyESInfo field descriptions

Field Name	Type	Null?	Description	Length	Additional Attributes
CampaignID	BIGINT	NOT NULL	composite Primary key for this table.		**Is Primary Key?** Yes **Is Foreign Key?** No

Table 132. UA_JourneyESInfo field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					Required Field? Yes
					System Generated? Yes
					System Generated Override? No
					User Entered? No
					Stored Create? Yes
					Stored Save? No
					Stored Execute? No
					Configuration? No
FlowchartID	BIGINT	NOT NULL	Composite Primary key for this table.	1024	**Is Primary Key?** Yes
					Is Foreign Key? No
					Required Field? Yes
					System Generated? Yes

Table 132. UA_JourneyESInfo field descriptions (continued)

Field Name	Type	Null?	Description	Length	Additional Attributes
					System Generated Override? No **User Entered?** No **Stored Create?** Yes **Stored Save?** No **Stored Execute?** No **Configuration?** No
EntrySourceID	BIGINT	NOT NULL	Composite Primary key for this table	19	**Is Primary Key?** Yes **Is Foreign Key?** No **Required Field?** Yes **System Generated?** Yes **System Generated Override?** No
