Superset Cluster Recommendations

Superset Cluster Recommendations

Superset cluster uses third-party components, including Superset, Postgres, and Redis.

Supported Component Versions

Component	Current Version
Superset	*4.0.2-debian-12.6*
Postgres	*14.6.0-debian-11-r13*
Redis	*7.0.10-debian-11-r4*

The solution uses third-party components and relies on the respective vendors to address any issues. The recommendations and advisory details provided are valid as of the General Availability (GA) release. Any updates, patches, or changes applied to these components after the GA release are the customer's responsibility. HCL Unica is not liable for any issues or failures resulting from such modifications. Certification of newer versions of Superset will be required from HCL Unica, and HCL Unica will certify these versions with each new release.
