# Chapter 1. System requirements and compatibility

Unica Centralized Offer Management operates as part of the HCL Marketing Software suite of products. Unica Centralized Offer Management requires Unica Platform 12.1.8 and Unica Campaign 12.1.8.

This section provides the following information for this release of Unica Centralized Offer Management:

- Where to find system requirement and compatibility information
- Changes in support for third-party software

Unica Centralized Offer Management supports 64-bit operating systems only.

## Where to find complete system requirement and compatibility information

For a list of HCL Marketing Software product versions compatible with this product and a list of third-party requirements for this product, see the *Unica Recommended Software Environments and Minimum System Requirements* document.

## Upgrade Paths

Supported upgrade path via installers:

- 12.1.x → 12.1.8
- 12.1.0.x → 12.1.8

**Note:** 12.1.8 can be clean installed without installing the base version.

## Where to find documentation

You can find the documentation here.

- **PDFs:** <https://doc.unica.com/products/index.php?showFolder=RW50ZXJwcmIzZQ==>
- **Online Help:** <https://help.hcltechsw.com/unica/COM/en/12.1.8/index.html>

## Google Chrome and Microsoft Edge configuration

Recently, the browsers Google Chrome and Microsoft Edge updated a security fix and this security fix affects the access of Unica applications. We have received some issues from our customers like:

- issues with UI
- unable to edit flowcharts
- getting logged out from Unica

These issues are observed due to the change of behavior in browsers after applying the security fix. Applying the security fix automatically enables **Origin-keyed Agent Clusters by default**. If the setting **Origin-keyed Agent Clusters by default** is enabled automatically, it prevents changes in document referrer and domain values so that malicious websites cannot execute any type of impersonation. The setting **Origin-keyed Agent Clusters by default** existed earlier as well, but was not enabled by default.

If you update Google Chrome or Microsoft Edge to the latest version, you will observe the earlier mentioned issues. Because of how Unica is designed and because the Unica suite is deployed over multiple JVMs, it is essential that you disable the **Origin-keyed Agent Clusters by default** setting for Unica to function correctly and to provide a good user experience.

As a solution, we recommend that you perform the steps mentioned in the following Knowledge Base article: [https://support.hcltechsw.com/csm?id=kb\\_article&sysparm\\_article=KB0107185](https://support.hcltechsw.com/csm?id=kb_article&sysparm_article=KB0107185).

**Note:** The update to Microsoft Edge browser is very recent and the Knowledge Base article is not yet updated for the Microsoft Edge browser.

The CliffsNotes solution is as follows:

1. Open your browser and navigate to one of the following URLs based on your browser:
  - **Google Chrome:** <chrome://flags/#origin-agent-cluster-default>
  - **Microsoft Edge:** <edge://flags/#origin-agent-cluster-default>
2. From the dropdown of the highlighted parameter **Origin-keyed Agent Clusters by default**, select `Disabled`.
3. At the bottom of the page, click the **Apply Changes** button.
4. Log out of Unica applications, log back in, and verify if everything is working as expected.

## Chapter 2. New features and changes in version 12.1.8

Unica Centralized Offer Management is centralized solution for Unica customers for creating and managing offers and using it across Unica's suite of products. As a strategy, the future requirements of Unica customers, related to the offer management, will be made available using the Unica Centralized Offer Management application.

For the 12.1.8 release, Unica Centralized Offer Management is not mandatory. Customers upgrading to 12.1.8 can still use the existing offer management capability that they are using. However, customers using Unica Campaign's offer management capability and Unica Plan's offer management capability are strongly advised to evaluate and switch to the Unica Centralized Offer Management.

There were no new features in Unica Centralized Offer Management 12.1.8 release.

# Chapter 3. Fixed Defects

The following table lists the fixed defects in Unica Centralized Offer Management 12.1.8:

Issue ID	Description
HMA-362934	For certain time zones, offer effective date and expiration date was incorrect after saving it.

HMA-328766	Incorrect behaviour in case of added attribute to the Autosync'ed offer.
HMA-320808	Acoustic COM integration-: SSDB and rich text attributes are not supported in Acoustic.

# Chapter 5. Before you contact HCL technical support

If you encounter a problem that you cannot resolve by referring the documentation, your company's designated support contact can log a call with HCL technical support. Use these guidelines to ensure that your problem is resolved efficiently and successfully.

If you are not a designated support contact at your company, contact your HCL administrator for information.

## Information to gather

Before you contact HCL technical support, gather the following information:

- A brief description of the nature of your issue.
- Detailed error messages that you see when the issue occurs.
- Detailed steps to reproduce the issue.
- Related log files, session files, configuration files, and data files.
- Information about your product and system environment, which you can obtain as described in "System information."

## System information

When you call HCL technical support, you might be asked to provide information about your environment.

If your problem does not prevent you from logging in, much of this information is available on the **About** page, which provides information about your installed HCL applications.

You can access the **About** page by selecting **Help > About**. If the **About** page is not accessible, check for a `version.txt` file that is located under the installation directory for your application.

## Contact information for HCL technical support

For ways to contact HCL technical support, see the HCL technical support website:
