IBM UNICA DETECT 8.5

RECOMMENDED SOFTWARE ENVIRONMENTS AND MINIMUM SYSTEM REQUIREMENTS

This document lists the software environments and minimum system requirements supported by the IBM Unica Detect 8.5.

Software Environments

The sections on software environments list the web server, operating system, and database combinations recommended by IBM Unica Detect.

Third-party products (for example, software and drivers) are not available from IBM Unica.

Minimum System Requirements

The minimum system requirements are provided as guidance for hardware sizing for IBM Unica Detect. Higher processing needs require larger configurations. The minimum system requirements listed in this document for IBM Unica Detect are for Windows-based systems.
